Imperial Porcelain

Imperial Porcelain, in its application to plumbing appliances, has long since passed beyond the experimental stage; indeed, it is unquestionably the ideal, and as such is now being exclusively employed in the best private and public buildings.

It was early in the 80's that we began the importation from England of Imperial Porcelain; and, while its merits were appreciated, yet the English manufacturers did not possess the art of producing the ware in the artistic shapes and designs or of the high quality produced by us to-day.

The year 1894 marked an epoch in the manufacture of sanitary appliances in the United States, viz., the establishing of our Imperial Porcelain Works in Trenton, N. J. Immediate improvement over the English ware was the result, but it was not until 1896 that what was practically a revolution took place. Our original works burned down to be superseded by a plant that is the most complete and perfect in existence and which enables us to produce Imperial Porcelain so superior in quality as to enable us to export it largely to England and the continent of Europe. This is indeed like "sending coals to Newcastle" and is perhaps unparalleled in the history of American manufactures.

The requirements of modern plumbing are such that the various appliances must not only be of a high standard from a sanitary standpoint, but also artistic in design and construction. Our unequalled success in this direction has been largely due to the fact that we have always kept this idea in view. The outcome has been that the bath room of to-day constitutes a primary feature in the "House Beautiful," and no factor has contributed more to this condition than Imperial Porcelain.

Imperial Porcelain Lavatories

Custom and tradition have been deservedly swept aside by the supplanting of marble lavatories by those of Imperial Porcelain. Evolutions of consequence are as a rule gradual, and it is seldom that one article that takes the place of another is so immeasurably superior as is the Imperial Porcelain Lavatory to all that have preceded it. No matter what the point of view, the Imperial Porcelain Lavatory stands out boldly and strongly as the very best thing of its kind yet produced.

The advantages of the Imperial Porcelain Lavatory may be divided in two classes, viz., sanitary and those of appearance. Among the former are its glazed surface, rendering it non-absorbent and unstainable. The slab and basin are in one piece, obviating the joints so objectionable in the marble lavatory. As to its appearance, no description can do justice to the beautiful glaze, and its color, a soft china white—so desirable in a sanitary appliance, as it appeals both to the eye and to the judgment. In shape and design the Imperial Porcelain admits of effects utterly impossible with marble.

To those who intend building and can visit either of our showrooms in New York, Philadelphia, Boston and Chicago, no words of praise from us are necessary—the lavatories will speak for themselves. When, however, it is not possible to give us the pleasure of a visit, we feel that a careful examination of this catalogue will convince the most skeptical that for all classes of buildings, for the residential mansion and for the high class hotel, there is but one lavatory, and that is the Imperial Porcelain.

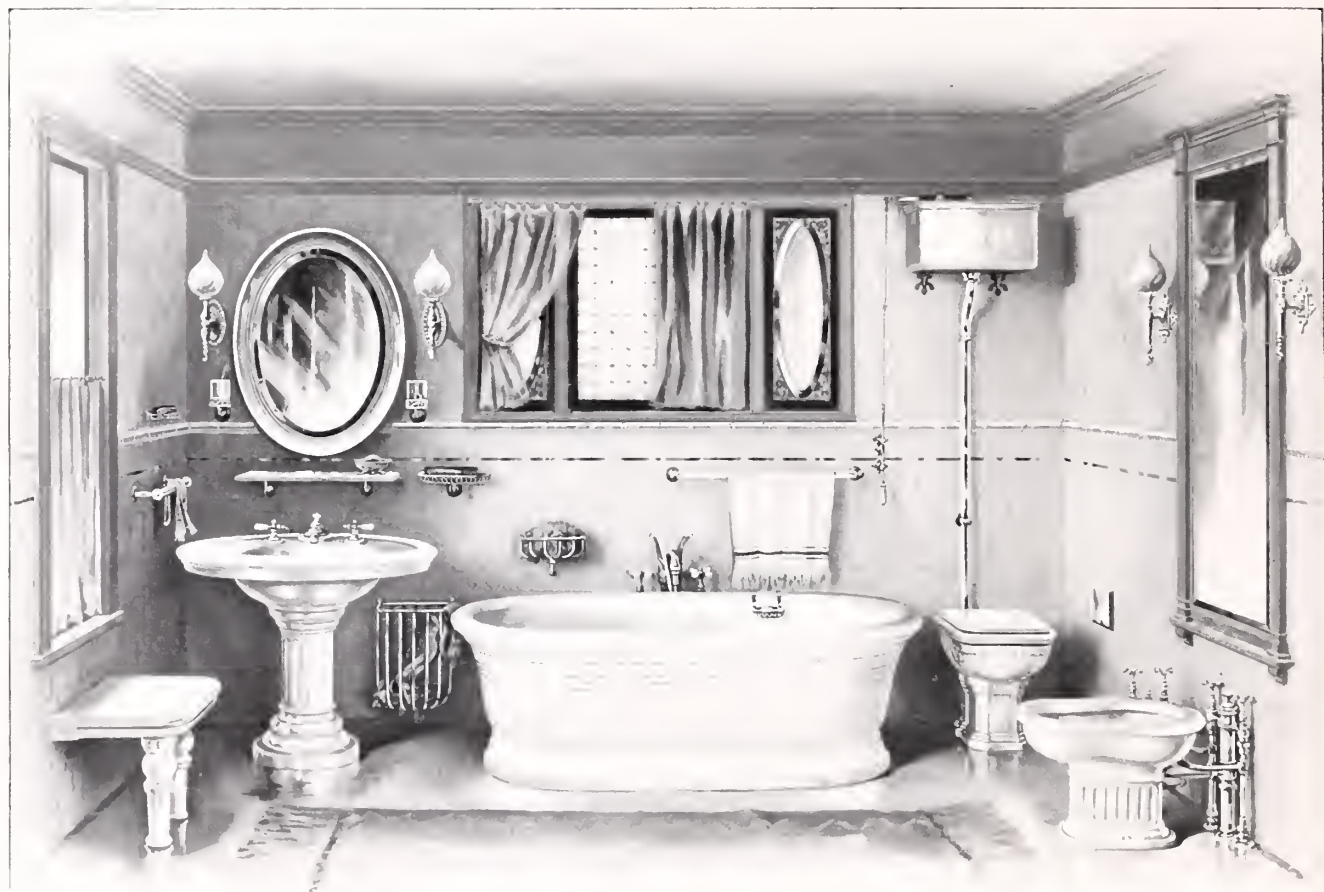

Plate 2079-R

Plate 2079-R

Bath Room, "Victorian." Decoration, "White and Gold"

	Class A	Class B
<i>Bath</i> —The "Victorian," 5 feet 6 inches, imperial porcelain, decorated white with embossed bead touched in gold and three gold lines, with nickel-plated supply fittings and "Unique" waste	\$286 50	\$231 50
<i>Lavatory</i> —The "Victorian," imperial porcelain touched in gold, with nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap	147 75	119 75
<i>Mirror</i> —Beveled-edge plate glass with white enameled wood frame, 36 by 27 inches	36 00	
<i>Water Closet</i> —The "Renaissance" syphon-jet water closet, touched in gold, with "Celluvarno" white seat and cover, nickel-plated flush pipe, No. 25 "Renaissance" cistern white and gold, white enamel brass brackets, nickel-plated guide and rod with china handle, and brass floor flange	120 25	
<i>Bidet</i> —All-porcelain flushing-rim bidet, touched in gold, with porcelain seat, nickel-plated combination supply fittings to bidet and to fill bowl, and "Unique" waste	83 00	
<i>Bath Seat</i> —Imperial porcelain with legs	24 00	20 00
<i>Paper Holder</i> —Patent nickel-plated paper holder, recessed into wall		5 50
<i>Lavatory Fittings</i> —Nickel-plated towel rack with glass bar for lavatory, 24 inches long		3 25
Imperial porcelain shelf on nickel-plated brackets		10 00
China soap dish with nickel-plated holder		3 50
Nickel-plated comb and brush rack		4 75
Cut glass tumbler with nickel-plated holder		2 75
Nickel-plated nail brush holder		2 50
China vase and nickel-plated holder		2 50
Nickel-plated rack for soiled towels		13 25
Nickel-plated sponge rack		5 50
Nickel-plated soap dish for bath		3 50
Nickel-plated towel rack with glass bar for bath towels, 30 inches long		3 50

Plate 2079-R and the illustrations of bath rooms that follow, serve to show the imperial porcelain lavatory in conjunction with the other appliances that constitute a well-appointed bath room; at the same time they indicate some of the many designs, such as "Rococo," "Shell and Ribbon," etc., in which the bath room can be decorated, the lavatory being a conspicuous feature.

Plate 2039-R

Plate 2039-R

Bath Room, "Baronial." Decoration, "Shell and Ribbon"

	Class A	Class B
<i>Bath</i> —The "Baronial," $\frac{1}{5}$ feet, imperial porcelain, embossed decoration (the ribbon tinted pink, the seaweed tinted green, and the shell touched with gold), with nickel-plated supply fittings and "Unique" waste	\$248 00	\$206 75
Same, 5 feet 6 inches	275 50	220 50
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, with imperial porcelain back and legs, decorated shell and ribbon, nickel-plated "Primus" combination supply and waste with china handles, nickel-plated adjustable trap and supply pipes	168 25	114 00
Same, 36 by 24 inches	179 75	123 25
<i>Mirror</i> —Beveled plate glass with polished wood frame, finished in white enamel, 33 by 24 inches		31 00
Same, 36 by 24 inches		34 00
<i>Water Closet</i> —The "Silentis," decorated embossed "Shell and Ribbon," with "Celluvarno" white seat and cover, nickel-plated flush pipe, No. 25 cistern, with embossed decoration "Shell and Ribbon," white enameled brass brackets, nickel-plated guide and rod with china handle and brass floor flange		122 50
<i>Paper Holder</i> —Patent nickel-plated paper holder, recessed into wall		5 50
<i>Lavatory Fittings</i> —China soap dish, with nickel-plated brass holder		3 50
China tooth brush vase with nickel-plated brass holder		2 50
Nickel-plated brass tumbler holder and cut glass tumbler		2 75
Nickel-plated brass sponge holder		5 50
Nickel-plated towel rack with glass bar, 30 inches long		3 50
Nickel-plated brass hand rail		4 50
Nickel-plated brass comb and brush holder		2 75

Modern plumbing as applied to a bath room does not consist merely of three or four appliances that bear no relation one to the other either in construction, design or decoration. On the contrary, each element, whether the bath, lavatory, water closet or tiling, should be selected so that the bath room as a whole produces an artistic effect and satisfies the critical eye. Plate 2039-R demonstrates what we have accomplished in this direction, a factor of great importance being the imperial porcelain lavatory. This, with its beautiful china-white surface decorated in gold and colors and with the delicate curves of the "Rococo" shape, effects a result utterly impossible with marble.

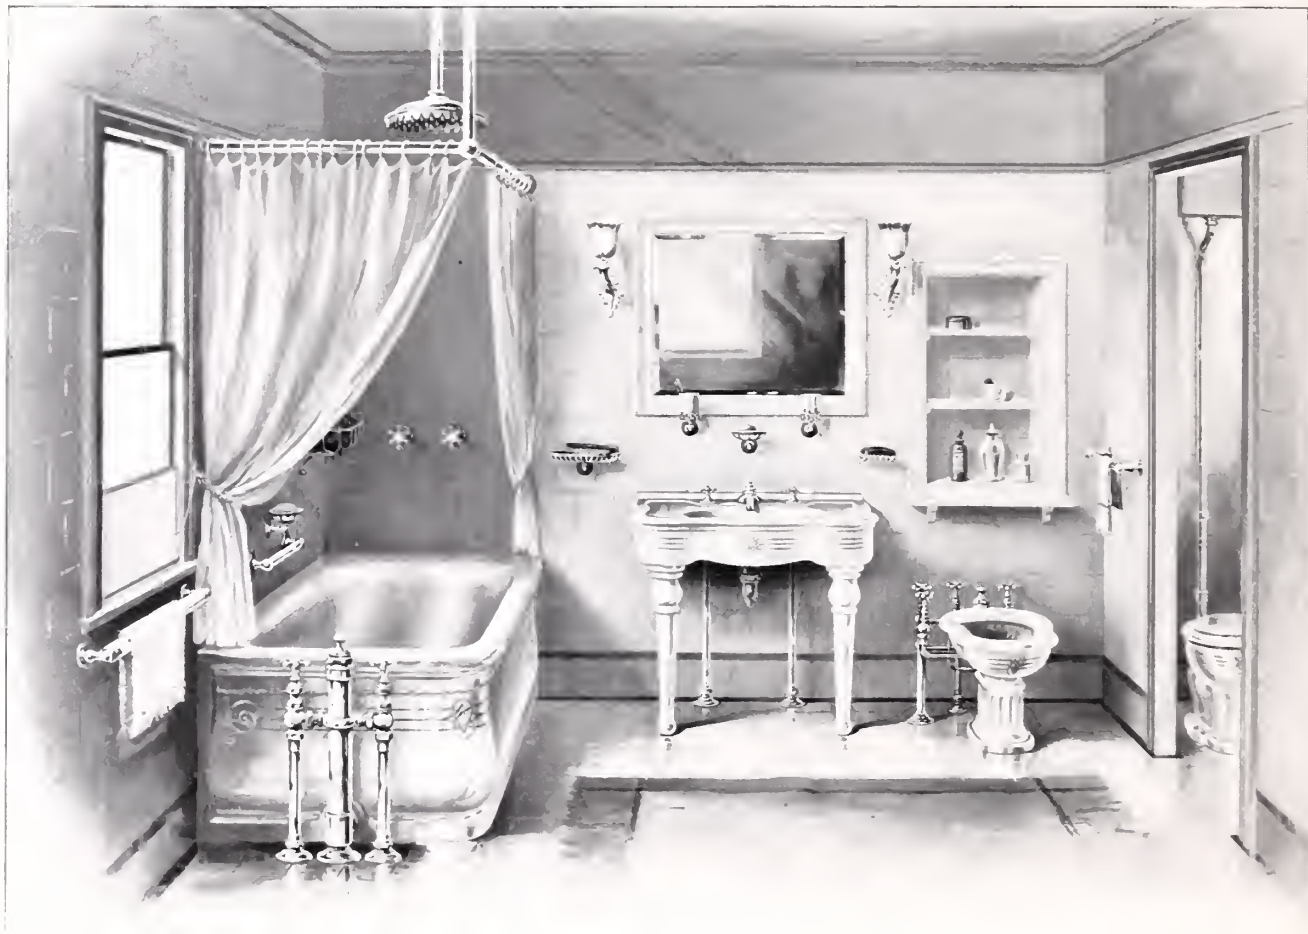

Plate 2080-R

Plate 2080-R

Bath Room, "Baronial." Decoration, "Italian"

	Class A	Class B
<i>Bath</i> —The "Baronial," 5 feet, imperial porcelain, "Italian" decoration, white and gold, with nickel-plated supply fittings and "Unique" waste	\$237 00	\$195 75
Same, 5 feet 6 inches	264 50	209 50
<i>Shower</i> —Nickel-plated shower valves and shower as shown, nickel-plated brass curtain rod, white rubber curtains and nickel-plated chains and hooks		57 50
<i>Lavatory</i> —The "Baronial," 33 by 24 inches, imperial porcelain, with imperial porcelain legs, "Italian" decoration, white and gold, nickel-plated "Primus" combination supply and waste with china handles, supply pipes, and nickel-plated adjustable trap	106 75	94 75
Same, 36 by 24 inches	115 50	102 25
<i>Mirror</i> —Beveled plate glass mirror with tile frame, 33 by 36 inches		27 00
Price is for the mirror and frame, unmounted. They should be set in the wall by the tile setter according to directions sent with each mirror; or we will estimate on furnishing and setting the tile walls and mirror complete.		
<i>Bidet</i> —All-porcelain rim-seat bidet decorated "Italian" design in gold with combination nickel-plated supply fittings for bidet and to fill bowl, and "Unique" waste		83 00
<i>Water Closet</i> —The "Silentis," decorated "Italian" design, with "Hygeia" seat and cover (quartered oak or cherry), No. 25, design L cistern, nickel-plated brackets, flush pipe, nickel-plated guide and rod with porcelain pull and brass floor flange		74 50
If with "Celluvarno" white seat and cover, add		13 25
<i>Lavatory Fittings</i> —China soap dish, with nickel-plated holder		2 50
Nickel-plated comb and brush holder		4 75
China tooth brush vase with nickel-plated holder		2 50
Cut glass tumbler and nickel-plated holder		2 75
Nickel-plated nail brush holder		2 50
Nickel-plated hand rail		4 50
Glass towel rack, 24 inches long, with nickel-plated standards		3 25
Glass towel rack, 30 inches long, with nickel-plated standards		3 50
Nickel-plated sponge holder		1 75

The advantages of imperial porcelain as applied to fine plumbing appliances are accentuated in Plate 2080-R. It will be seen that the lavatory is keyed into the tile wall same as the "Baronial" bath, with the lavatory fittings such as soap, sponge and brush holders permanently fixed, also the mirror set in tile frame. No illustration can do justice to Plate 2080-R, nor portray the beautiful effect of the china-white glaze of the bath and lavatory blending into the tiled wall.

The water closet is shown in an adjoining apartment, having doors opening into the bath room and hall.

Plate 2081-R

Plate 2081-R

Bath Room, Imperial Porcelain. Decoration, "Bead Touched in Gold"

<i>Bath</i> —Imperial porcelain French bath, 4 feet 6 inches, decorated white with embossed bead touched in gold, with nickel-plated supply fittings and "Unique" waste with china handles	Class A	Class B	Class C
	\$209 00	\$148 50	\$117 75
Same, 5 feet	220 00	154 00	121 00
Same, 5 feet 6 inches	225 50	165 00	126 50
Same, 6 feet	253 00	181 50	135 50
Same, extra wide, 6 feet by 3 feet 3 inches	495 00	346 50	275 00
<i>Shower</i> —Nickel-plated shower with white rubber curtain, chain and hook			\$48 50
<i>Lavatory</i> —The "Boylston" imperial porcelain lavatory, with nickel-plated brass frame and legs, nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap		Class A	Class B
		\$112 50	\$96 00
<i>Toilet Table</i> —Imperial porcelain, 33 by 14 inches, with nickel-plated brass legs and plate glass mirror with nickel-plated brass frame, 33 by 30 inches		78 50	73 00
<i>Water Closet</i> —The "Silentis," decorated with gold bead, with "Manhattan" cabinet finish oak or cherry seat and cover, No. 25, design L cistern with nickel-plated brass brackets, flush pipe, guide and rod with china pull, and brass floor flange			77 50
If with "Celluvarno" white seat and cover, add			13 25
If the cistern is finished white enamel with gold bead, add			8 25
If with "Celluvarno" white cistern, add			27 50
<i>Paper Holder</i> —Patent nickel-plated paper holder, recessed into wall			5 50
<i>Lavatory Fittings</i> —Imperial porcelain shelf, 24 by 6 inches, with imperial porcelain brackets			10 00
Nickel-plated comb and brush rack			4 75
Cut glass tumbler with nickel-plated holder			2 75
China soap cup and nickel-plated holder			2 50
China tooth brush vase with nickel-plated holder			2 50
Nickel-plated nail brush holder			2 50
Glass towel rack with nickel-plated standards, 24 inches long			3 25
Nickel-plated soap cup for bath			3 50
Nickel-plated sponge holder			5 50
Glass towel rack, with nickel-plated standards, 30 inches long			3 50

No room in a residence can contribute more to the comfort, convenience and health of the household than a well-appointed modern bath room, such as, for instance, Plate 2081-R. While the entire arrangement, likewise the various appliances, is eminently utilitarian and sanitary, at the same time it appeals to the eye and is thoroughly artistic. Features of novelty are the "Boylston" imperial porcelain lavatory, and the imperial porcelain toilet table.

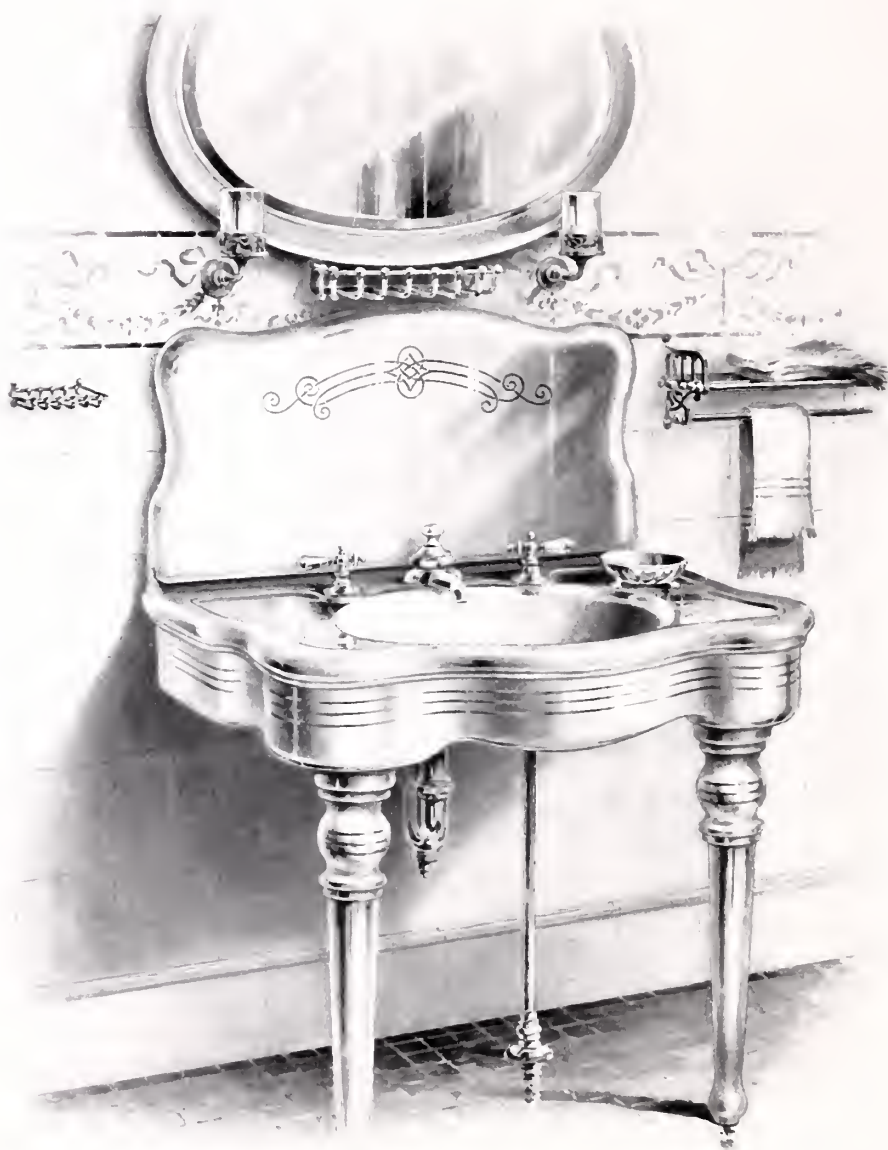

Plate 4034-R

Plate 4034-R

Lavatory, Imperial Porcelain. Decoration, "Colonial"

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, back and legs decorated "Colonial" (three gold lines), nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes, and nickel-plated brass adjustable trap	\$113 25	\$100 00
Same, 36 by 24 inches	124 75	109 25
If with shampoo, as Plate 4043-R, page 34, add	8 75	8 75
<i>Mirror</i> —Beveled plate glass oval mirror, with polished wood frame finished in white enamel, 33 by 24 inches		31 00
Same, 36 by 24 inches		34 00
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		3 50
Nickel-plated nail brush holder		2 50
China tooth brush vase with nickel-plated holder		2 50
Nickel-plated comb and brush rack		2 75
Cut glass tumbler with nickel-plated holder		2 75
Towel shelf and rack, 20 inches		5 00

The beautiful effect of white and gold decoration ("Colonial") is well known and it loses none of its attractiveness when applied to an imperial porcelain lavatory. As a matter of fact, the china-white glaze of the lavatory is peculiarly adapted to receive not only the "Colonial" decoration of Plate 4034-R, but all the others that follow. It is in the possibilities of decoration that one of the numerous advantages of imperial porcelain over marble is manifest. The only available place for decoration in a marble lavatory is *inside* the basin. The imperial porcelain lavatory admits of decoration on the outside, the back and the legs, with either none at all in the basin or merely a suggestion of the general design.

NOTICE.—The artistic shapes and designs and decorations of the imperial porcelain lavatories are the outcome of considerable time, experiment and expense. They are all either patented or patent applied for. Any infringement of our rights will be promptly and rigorously prosecuted.

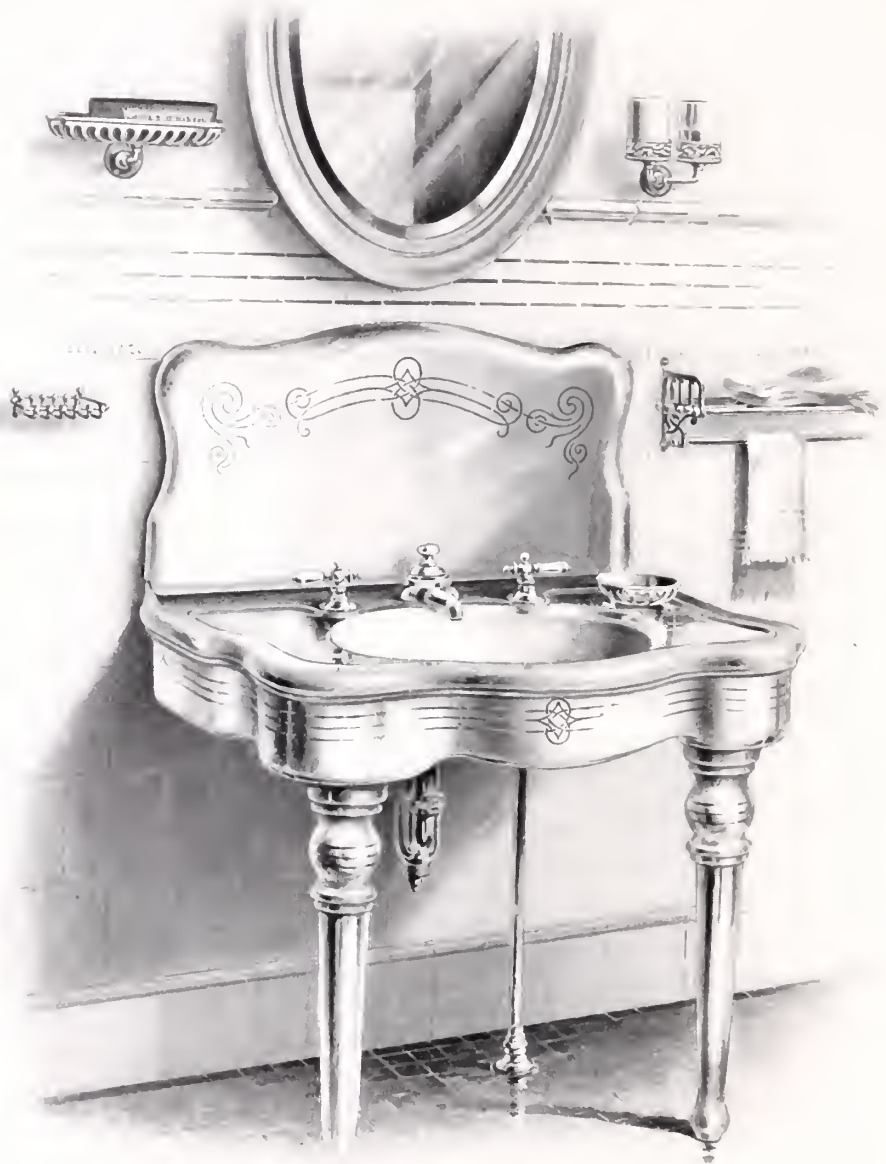

Plate 4035-R

Plate 4035-R

Lavatory, Imperial Porcelain. Decoration, "Italian"

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, back and legs, decorated in gold ("Italian" design), nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes, and adjustable trap	\$115 75	\$102 50
Same, 36 by 24 inches	127 25	111 75
If with shampoo, as Plate 4043-R, page 34, add	8 75	8 75
<i>Mirror</i> —Beveled plate glass mirror, with white enameled wood frame,		
33 by 24 inches		31 00
Same, frame 36 by 24 inches		34 00
<i>Lavatory Fittings</i> —Nickel-plated towel shelf and rack, 20 inches long		5 00
Nickel-plated nail brush holder		2 50
Nickel-plated comb and brush rack		4 75
Nickel-plated combination holder with china vase and cut glass tumbler		5 50
China soap dish and nickel-plated holder		3 50

Aside from the cleanly and inviting appearance of the imperial porcelain lavatory, with its heavy china-white glaze, the elements of strength and durability exist in a high degree. It is made in one piece of a thickness of nearly 2 inches—a glance at the sections will indicate this feature—and the basin is full size. In the ordinary marble lavatory the joint between the slab and basin has always been recognized as an objectionable feature; moreover, the overlap of the slab diminishes the effective size of the basin 1 to 1½ inches.

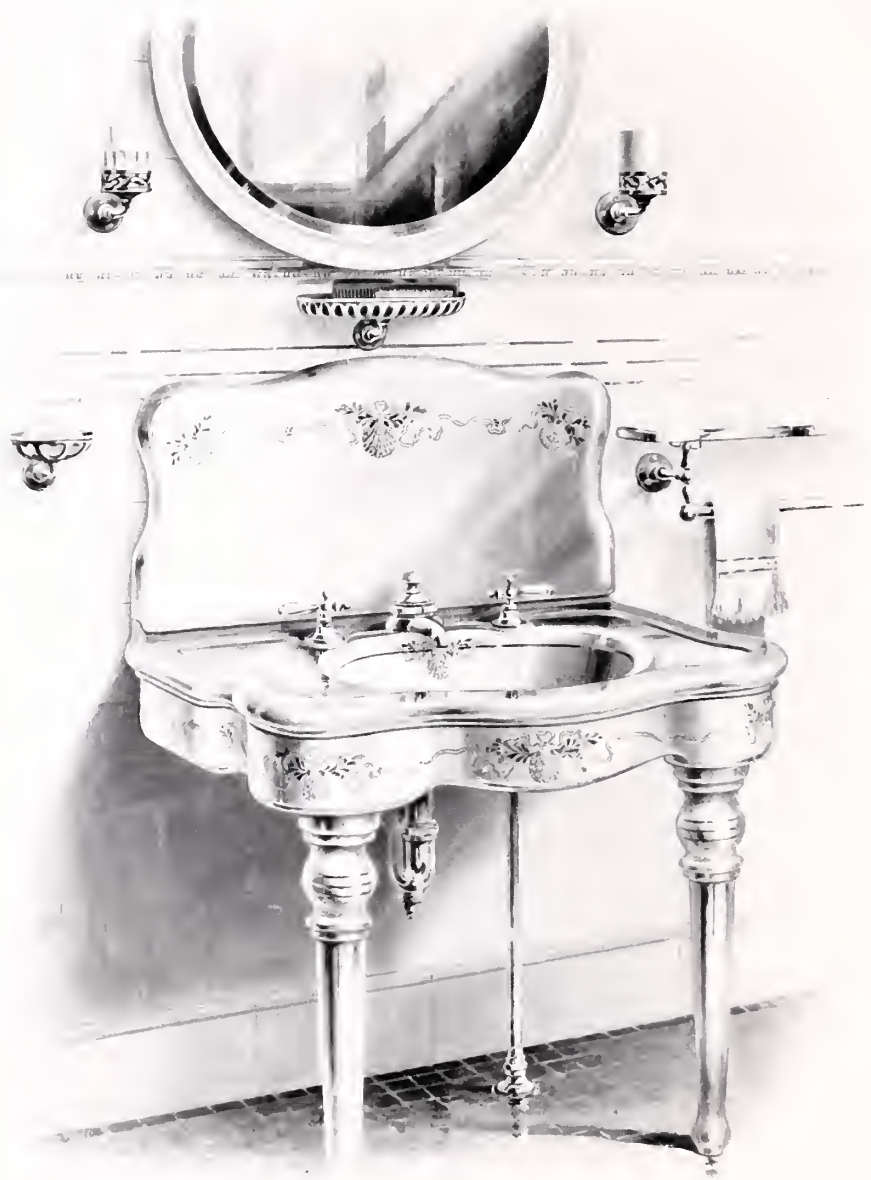

Plate 4036-R

Plate 4036-R

Lavatory, Imperial Porcelain. Decoration, "Shell and Ribbon"

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, back and legs, decorated "Shell and Ribbon" (the ribbon tinted pink, the sea-weed tinted green and the shell touched with gold), nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes, and adjustable trap	\$168 25	\$114 00
Same, 36 by 24 inches	179 75	123 25
If with shampoo, as Plate 4043-R, add	8 75	8 75

<i>Mirror</i> —Beveled plate glass round mirror with white enameled wood frame, 30 inches in diameter	31 50
---	-------

<i>Lavatory Fittings</i> —Nickel-plated comb and brush rack	4 75
Plate glass shelf, 27 inches long, with nickel-plated brass brackets and 18-inch glass towel bar	13 25
Cut glass tumbler and nickel-plated holder	2 75
China tooth brush vase and nickel-plated holder	2 50
China soap dish and nickel-plated holder	2 50

A Sèvres vase, a Dresden or Cauldon china decorated dinner set—these are what come to mind when seeing for the first time our decorated imperial porcelain lavatories. Indeed, the beautiful effect of the decoration upon the china-white glaze of the imperial porcelain ware is so artistic and satisfying to the eye that the practical and sanitary advantages of the lavatory are for a moment lost sight of. Heretofore, in a fine bath room, the lavatory was necessarily of onyx, which is very expensive as compared with imperial porcelain and by no means so well adapted for the purpose.

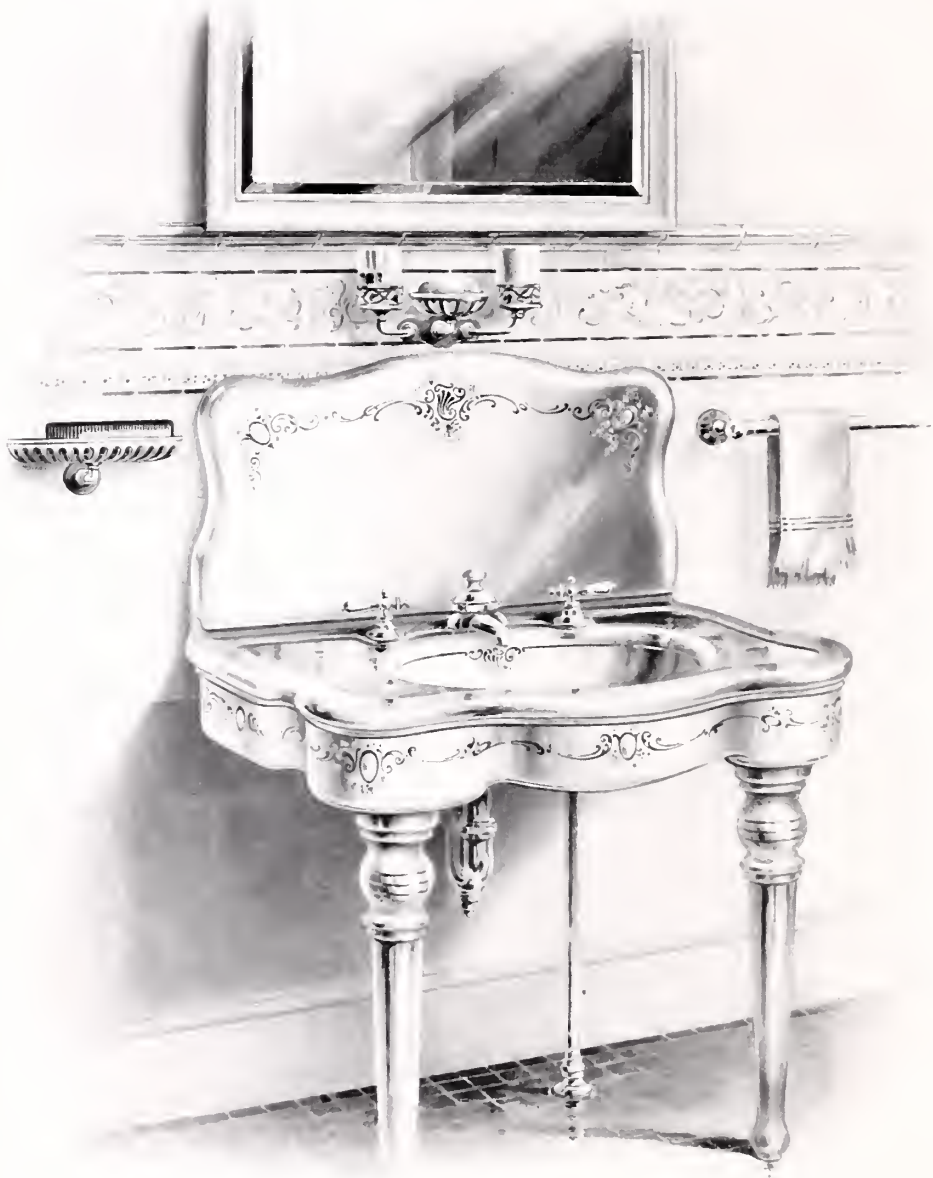

Plate 4037-R

Plate 4037-R

Lavatory, Imperial Porcelain. Decoration, "Rococo"

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, back and legs, decorated "Rococo" in gold (flowers in colors), nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes, and adjustable trap	\$168 25	\$114 00
Same, 36 by 24 inches	179 75	123 25
If with shampoo, as Plate 4043-R, add	8 75	8 75

<i>Mirror</i> —Beveled plate glass mirror, with white enamel wood frame, 33 by 30 inches	26 00
Same, frame 36 by 30 inches	30 00

<i>Lavatory Fittings</i> —Nickel-plated combination holder with china tooth brush vase, cut glass tumbler and china soap dish	8 75
Nickel-plated cast-brass comb and brush rack	4 75
Glass towel rack and nickel-plated standards, 24 inches long	3 25

The mirror plays an important part in the complete lavatory. As usual, we were the first to appreciate this fact and to establish for the mirror its proper relation and just proportion to the various lavatories. The mirrors shown in this catalogue are special designs and their appropriateness for use in conjunction with the imperial porcelain lavatories is manifest. Our mirrors are all first quality plate glass, the metal and polished wood frames being made and finished in the best manner.

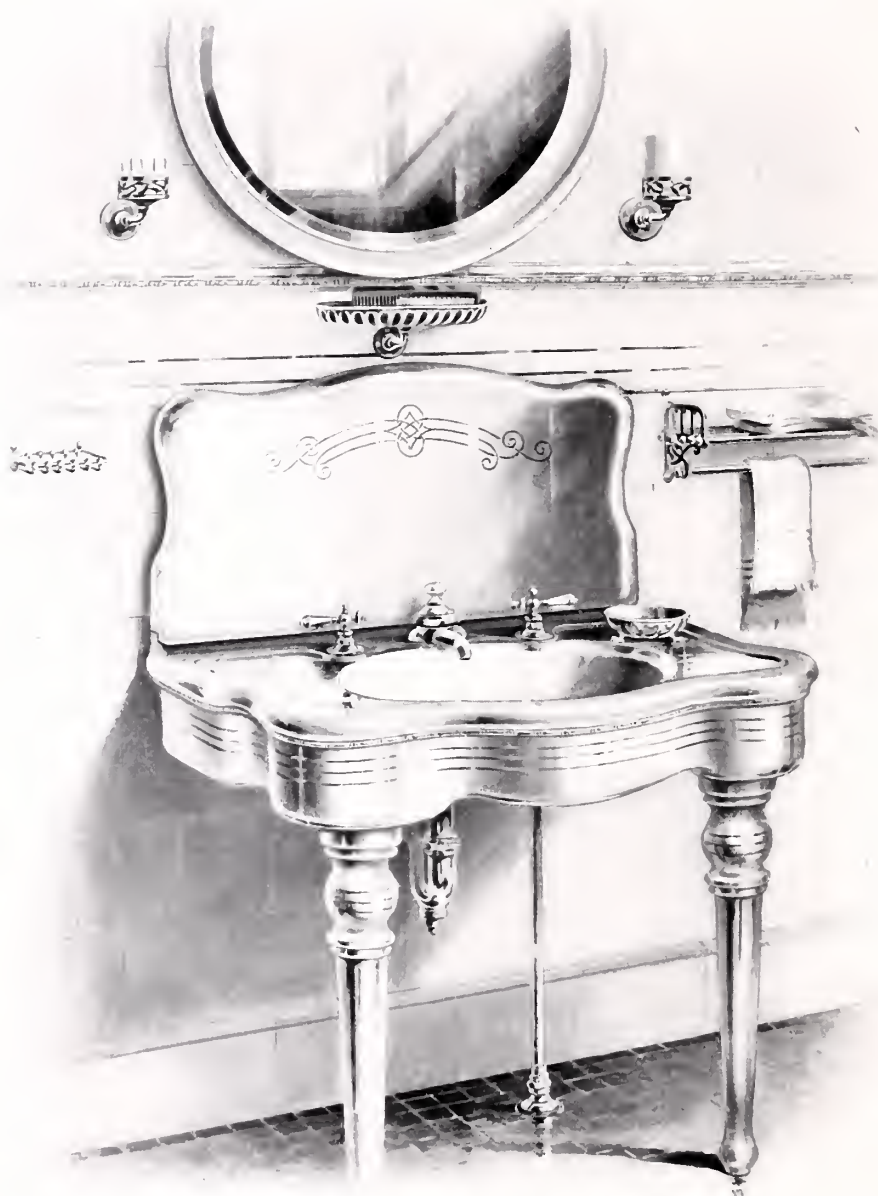

Plate 4038-R

Plate 4038-R

Lavatory, Imperial Porcelain. Decoration, "Gold Lines and Bead"

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 33 by 24 inches, back and legs, decorated "Gold Lines and Bead," nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes, and adjustable trap .	\$119 25	\$106 00
Same, 36 by 24 inches	130 75	115 25
If with shampoo, as Plate 4043-R, add	8 75	8 75

<i>Mirror</i> —Beveled plate glass round mirror with white enameled wood frame, 30 inches in diameter	31 50
---	-------

<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder	3 50
Nickel-plated nail brush holder	2 50
Nickel-plated rack for folded and hanging towels, 20 inches long	5 00
Nickel-plated comb and brush rack	4 75
Cut glass tumbler with nickel-plated holder	2 75
China tooth brush vase with nickel-plated holder	2 50

To give an idea how acceptable the imperial porcelain lavatories are to those who have them, we subjoin the following from one of the most prominent plumbers in New York City: "It gives me pleasure to inform you that the imperial porcelain lavatories that I purchased from you have given entire satisfaction. Without exception, my customers are highly pleased and have expressed their preference for them over marble. I shall unhesitatingly recommend the imperial porcelain lavatory in preference to marble, as I consider it superior in every way."

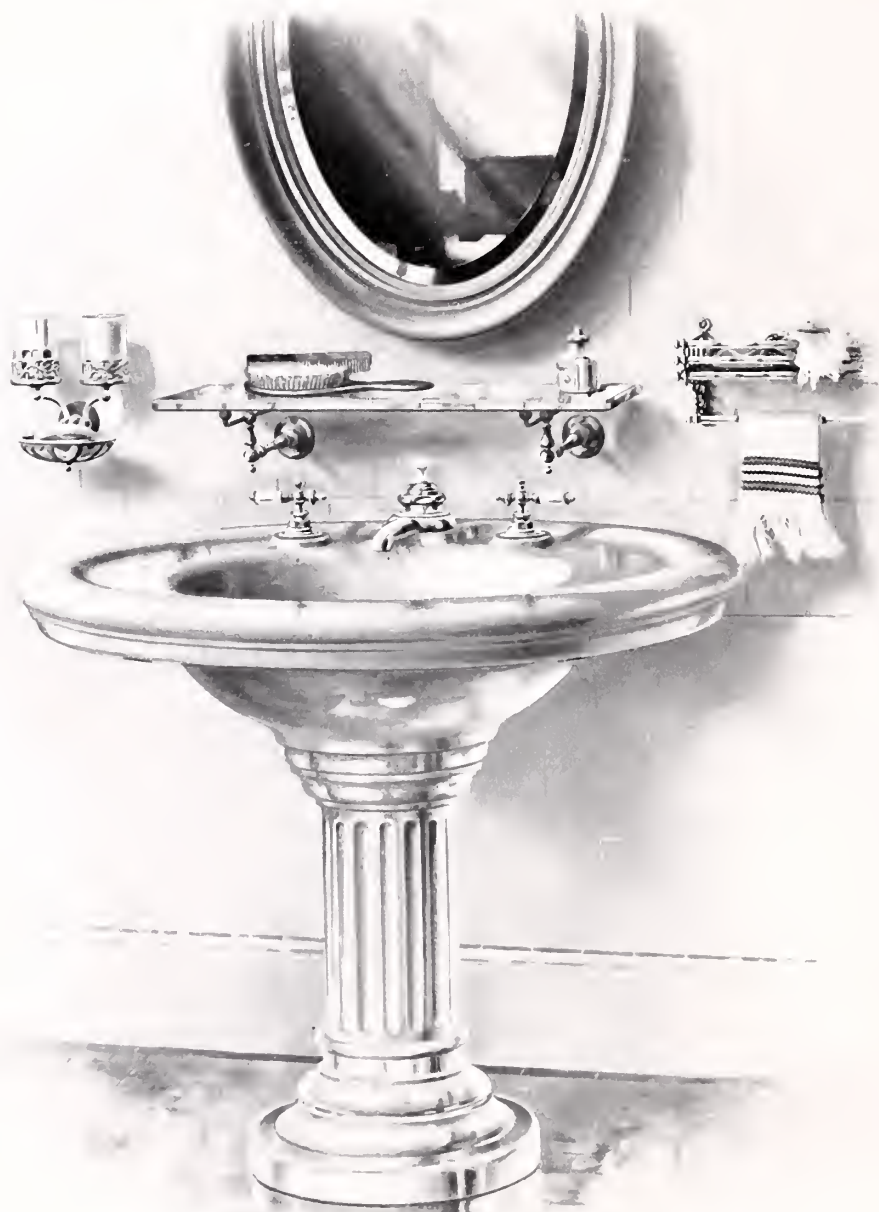

Plate 4039-R

Plate 4039-R
The "Victorian" Lavatory

	Class A	Class B
<i>Lavatory</i> —The "Victorian," imperial porcelain, with imperial porcelain pedestal, nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap	\$122 75	\$94 75
Same, decorated "Colonial" (three gold lines), as Plate 4034-R, page 14, the pedestal touched in gold	170 75	142 75
Same, decorated "Italian" in gold, as Plate 4035-R, page 16, the pedestal touched in gold	171 75	143 75
<i>Mirror</i> —Beveled-edge plate glass with white enameled wood frame, 36 by 27 inches		36 00
<i>Lavatory Fittings</i> —China soap dish, china tooth brush vase, cut glass tumbler with nickel-plated holder		9 50
Imperial porcelain or glass shelf, 27 by 5 inches, with nickel-plated brackets		11 00
Nickel-plated towel shelf and rack, 20 inches long		5 50
Dimensions: Slab, 37 by 27 inches; basin, 19½ by 14½ inches; distance from front of slab to wall, 30 inches; may be set closer if necessary.		

Nothing more beautiful or complete in itself has ever been designed in the way of a lavatory than the "Victorian" imperial porcelain. It stands altogether away from the tiled wall, and being all porcelain it meets the most ultra views of those desiring purity and cleanliness. Other features of this lavatory are its beauty of design, the fine effect of the beautiful glazed china-white surface and the ease with which it can be put in place.

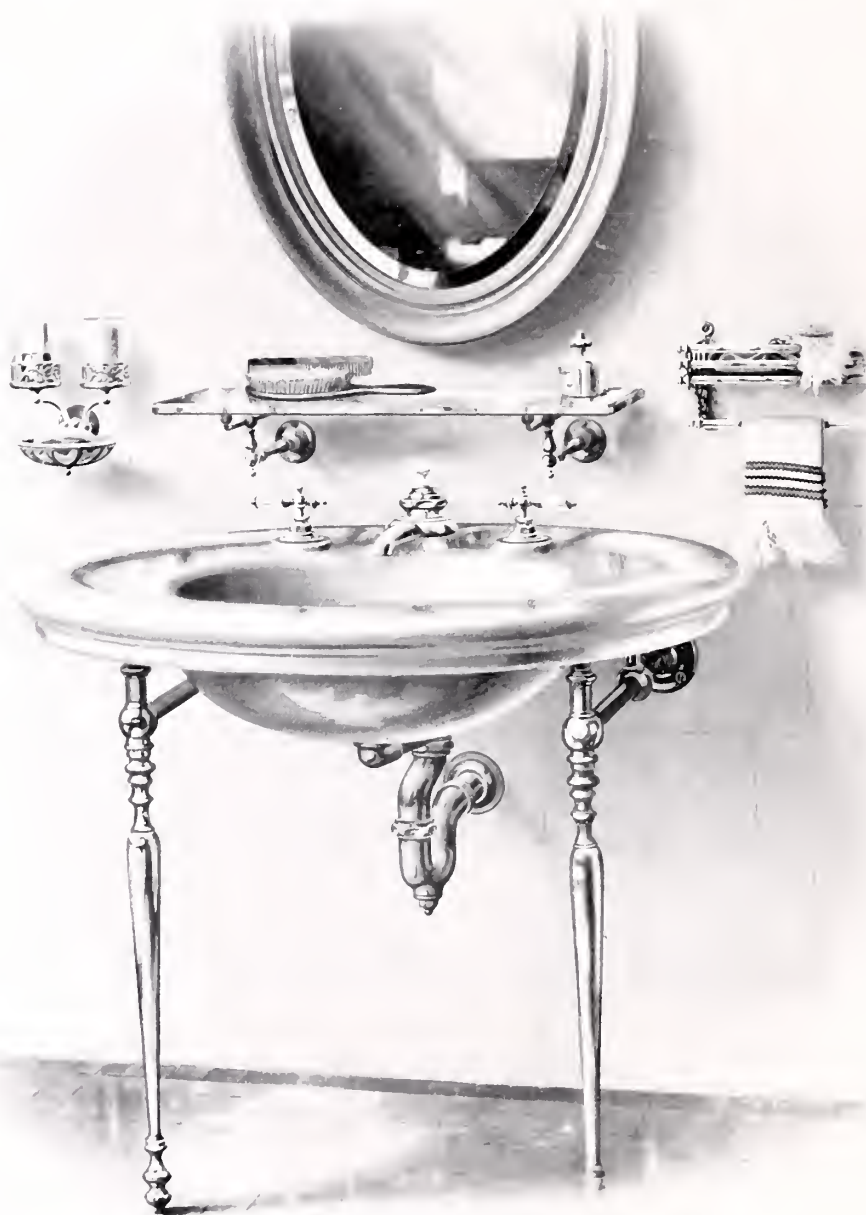

Plate 4040-R

Plate 4040-R *The "Boylston" Lavatory*

	Class A	Class B
<i>Lavatory</i> —The "Boylston" imperial porcelain, with nickel-plated brass frame and legs, nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap	\$112 50	\$96 00
Same, decorated "Colonial" (three gold lines), as Plate 4034-R, page 14	135 50	119 00
Same, decorated "Italian" in gold, as Plate 4035-R, page 16	136 50	120 00

<i>Mirror</i> —Beveled-edge plate glass, with white enameled wood frame, 36 by 27 inches	36 00
--	-------

<i>Lavatory Fittings</i> —China soap dish, china tooth brush vase, cut glass tumbler with nickel-plated holder	9 50
Imperial porcelain or glass shelf, 27 by 5 inches, with nickel-plated brackets	11 00
Nickel-plated towel shelf and rack, 20 inches long	5 50

Dimensions: Slab, 37 by 27 inches; basin, 19½ by 14½ inches; distance from front of slab to wall, 30 inches; may be set closer if necessary.

As will be seen by reference to the illustration, the "Boylston" lavatory is supported on nickel-plated brass legs, the latter extending back to the wall and engaging a cast-brass ring which encircles the basin below, the entire combination forming a neat, firm, workmanlike arrangement.

NOTICE.—Several patents have been granted on the "Victorian" and "Boylston" lavatories. Other patents, both for construction and design, have been applied for and are pending. All infringements upon our rights will be promptly and rigorously prosecuted.

Plate 4026-R

Plate 4026-R
The "Boylston" Lavatory

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, with nickel-plated brass frame and legs, nickel-plated "Unique" waste, nickel-plated low-down compression faucets with china name plates and nickel-plated adjustable trap	\$106 00	\$89 50
Same, decorated "Colonial" (three gold lines), as Plate 4034-R, page 14	129 00	112 50
Same, decorated "Italian" in gold, as Plate 4035-R, page 16	130 00	113 50
<i>Mirror</i> —Beveled-edge plate glass with white enameled wood frame, 36 by 27 inches		36 00
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		4 50
Nickel-plated nail brush holder		2 50
Cut glass tumbler with nickel-plated holder		3 25
China tooth brush vase with nickel-plated holder		3 00
Nickel-plated comb and brush holder		4 75
Nickel-plated towel rack and holder, 20 inches long		5 50

Dimensions: Slab, 37 by 27 inches; basin, 19½ by 14½ inches; distance from front of slab to wall, 30 inches; may be set closer if necessary.

When set up as they should be in a tiled bath room, no illustration or description can do justice to the "Victorian" and "Boylston" imperial porcelain lavatories. In the first place the tint of the tile blends perfectly with the porcelain, and the effect of the mass of china-white is simply superb. The "Victorian" and "Boylston" (as are all our imperial porcelain lavatories) are a triumph of the potter's art and will prove a source of never-ending satisfaction to those who are so fortunate as to have them in their bath rooms.

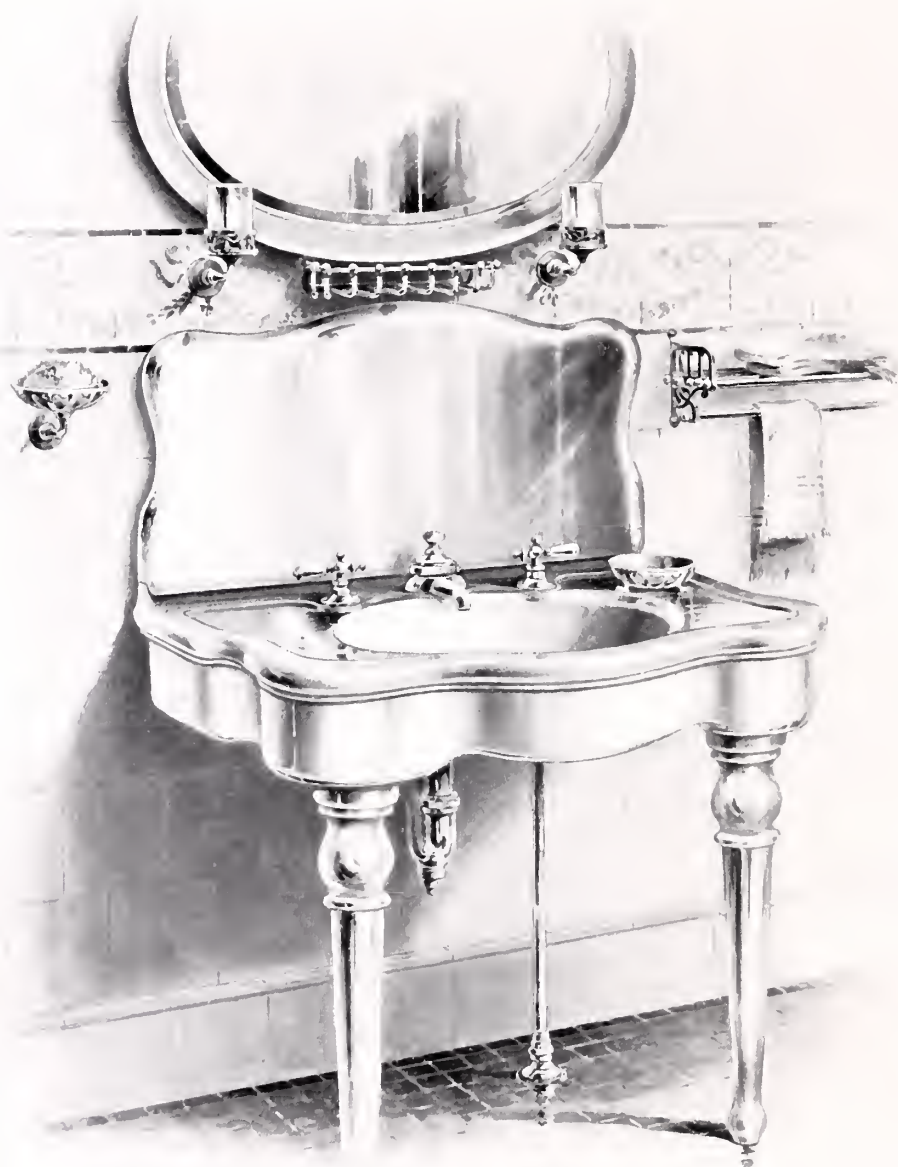

Plate 4041-R

Nickel-plated comb and brush rack			2 75
Cut glass tumbler with nickel-plated holder			2 75
Nickel-plated towel shelf and rack, 20-inch			5 00

Our imperial porcelain lavatories in their various forms are supplanting marble both for private and public work, and there are many reasons why they should. There is no joint between the slab and basin: the ware is non-absorbent and un-stainable; and above all is the smooth china-white glaze that appeals to those who desire a clean sanitary-appearing lavatory.

The classification of our imperial porcelain ware is very high. The Class A represents the highest grade of perfection obtainable with these large pieces of porcelain, while Class B and Class C can be used to advantage where cost is a consideration, as they have only slight marks or lines that do not detract from their durability or usefulness.

Imperial Porcelain Lavatory

	Class A	Class B	Class C
<i>Lavatory</i> —Imperial porcelain, 30 by 24 inches, and back, with nickel-plated brass legs, nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap	\$75 50	\$63 25	\$58 25
Same, 33 by 24 inches	81 25	68 00	61 25
Same, 36 by 24 inches	92 75	77 25	67 50
Nickel-plated supply pipes, extra, \$4.			
<i>Mirror</i> —Beveled plate glass mirror, with nickel-plated brass frame			
30 by 24 inches			31 50
Same, frame 33 by 30 inches			33 00
Same, frame 36 by 30 inches			38 50
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder			2 50
China tooth brush vase with nickel-plated holder			2 50
Cut glass tumbler with nickel-plated holder			2 75
Nickel-plated comb and brush holder			4 75
Nickel-plated towel rack, 20 inches long			3 25

It is just as essential for those contemplating building or remodeling their bath rooms to interest themselves in the plumbing appliances as it is to select the designs of carpets, portieres, etc. We therefore strongly urge that, whenever possible, a visit be paid to any of our show rooms in New York, Philadelphia, Boston and Chicago, where our imperial porcelain lavatories may be examined and their superlative excellence demonstrated.

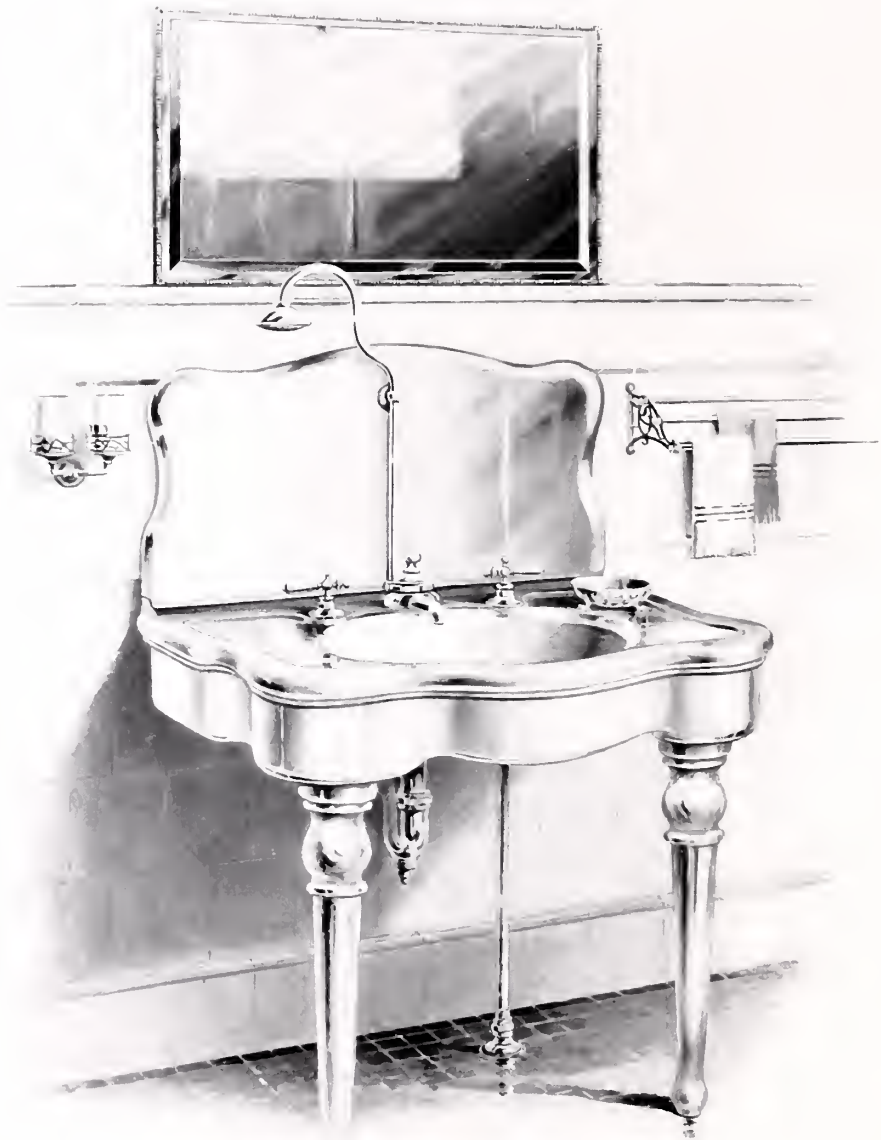

Plate 4043-R

Plate 4043-R
Imperial Porcelain Lavatory

	Class A	Class B	Class C
<i>Lavatory</i> —Imperial porcelain, 30 by 24 inches, back and legs, with nickel-plated "Primus" combination supply, shampoo and waste with china handles, nickel-plated supply pipes to floor, and nickel-plated brass adjustable trap	\$82 25	\$70 00	\$65 00
Same, 33 by 24 inches	88 00	74 75	68 00
Same, 36 by 24 inches	99 50	84 00	74 25
<i>Mirror</i> —Beveled plate glass mirror, with nickel-plated brass frame			
30 by 18 inches			21 00
Same, frame 33 by 18 inches			22 50
Same, frame 36 by 30 inches			38 50
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder . . .			3 50
China tooth brush vase and cut glass tumbler with nickel-plated combination holder			5 50
Nickel-plated towel rack, 20 inches long			3 25

The arrangement of supply and shampoo as Plate 4043-R is unquestionably the best, simplest and most convenient yet devised. When the shampoo is not in use, as shown, water will pass only to the basin. By giving the shampoo a quarter turn to the front the supply is opened to the shampoo and simultaneously closed to the basin.

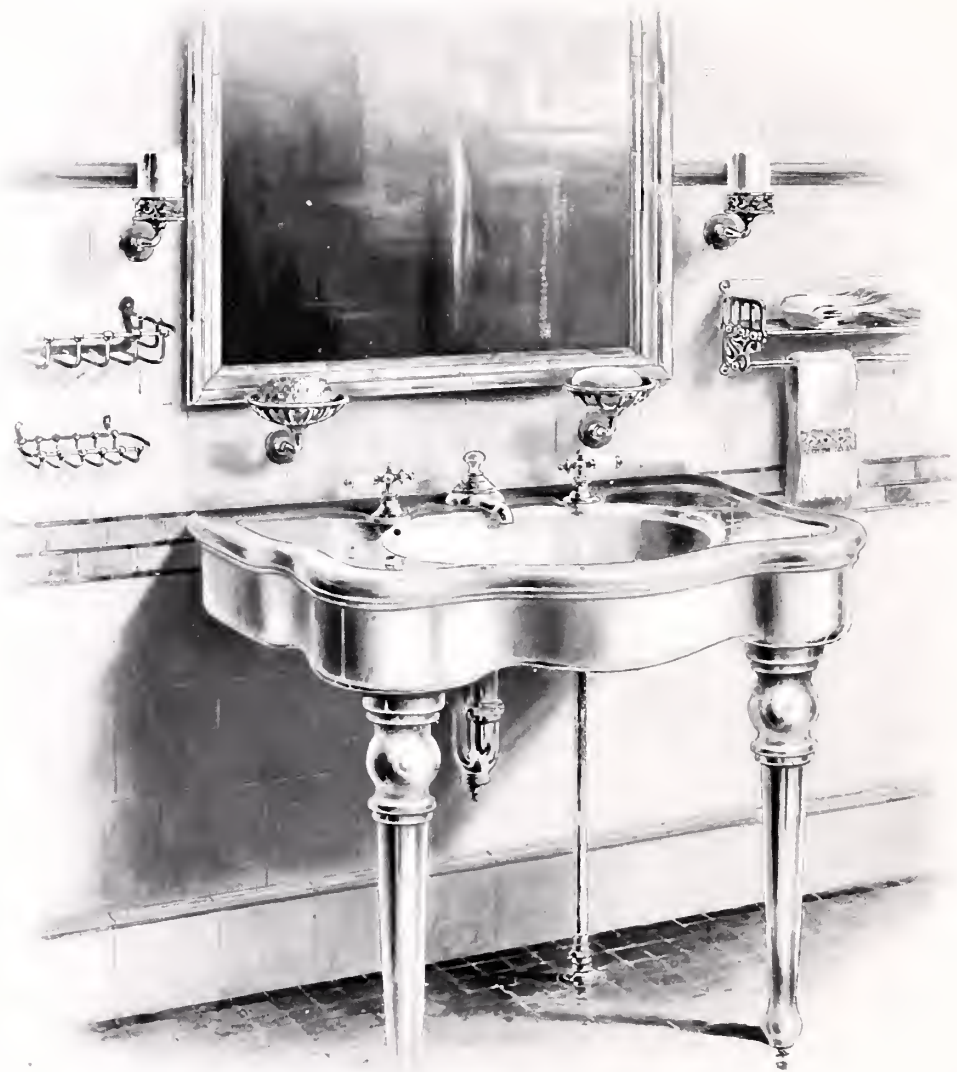

Plate 4044-R

Plate 4044-R

Imperial Porcelain Lavatory

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 30 by 24 inches, with imperial porcelain legs, nickel-plated "Primus" combination supply and waste with china handles, nickel-plated supply pipes and nickel-plated adjustable trap	\$67 50	\$56 50
Same, 33 by 24 inches	73 00	61 00
Same, 36 by 24 inches	81 75	68 50
If decorated "Shell and Ribbon," Plate 4036-R, p. 18, add	67 00	38 00
If decorated "Rococo," Plate 4037-R, page 20, add	67 00	38 00
If decorated "Colonial" (three gold lines), as Plate 4034-R, page 14, add	24 00	24 00
If decorated "Italian," in gold, as Plate 4035-R, p. 16, add	25 00	25 00

<i>Mirror</i> —Beveled plate glass mirror, with tile frame 30 by 36 inches, for 30-inch lavatory	24 25
Same, with frame 33 by 36 inches, for 33-inch lavatory	27 00
Same, with frame 36 by 36 inches, for 36-inch lavatory	30 00

The above prices are for the mirrors and frames unmounted. They should be set in the wall by the tile setter according to directions sent with each mirror: or, we will give estimate for furnishing and setting the tile walls and the mirror complete.

<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder	2 50
Nickel-plated sponge holder	1 75
Nickel-plated comb and brush rack	2 75
Nickel-plated nail brush rack	2 50
Cut glass tumbler with nickel-plated holder	2 75
China tooth brush vase with nickel-plated holder	2 50
Nickel-plated towel rack and shelf, 26 inches long	5 75

The illustration shows the lavatory keyed into tile wall, with all the fittings, such as soap, sponge and brush holders, permanently fixed, also the mirror set in tile frame. The arrangement is most complete and exceedingly pleasing to the eye, the lavatory being one solid piece without joint or seam and equal in color to the finest china.

It will be observed that the tiles finish on the raised rim at the back of the lavatory. As the raised rim is about one inch above the level of the lavatory it is obvious that the joint between the lavatory and tiles will not become discolored and objectionable, which cannot be said of the ordinary marble lavatory.

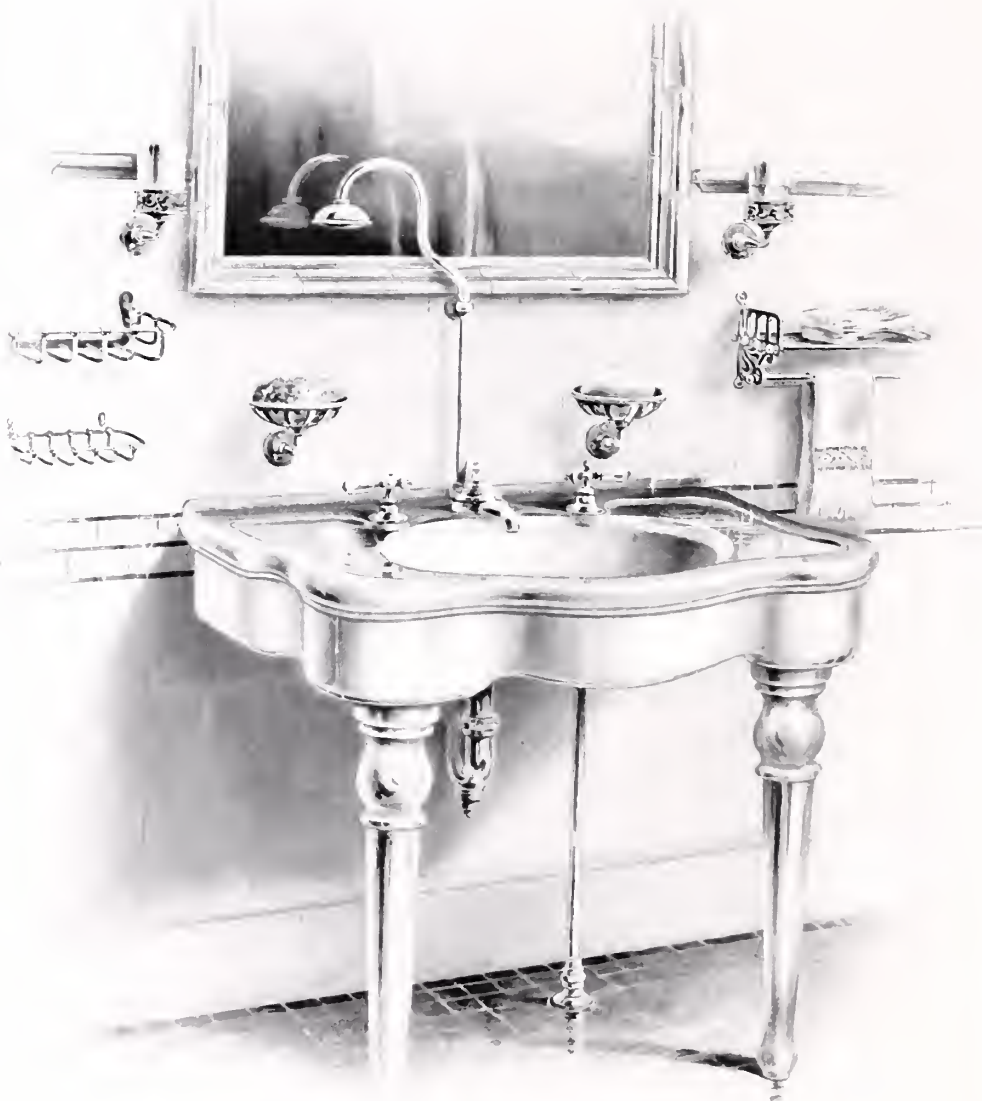

Plate 4045-R

Plate 4045-R

Imperial Porcelain Lavatory

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 30 by 24 inches, with imperial porcelain legs, nickel-plated "Primus" combination supply, shampoo and waste with china handles, nickel-plated supply pipes and nickel-plated adjustable trap . . .	\$76 25	\$65 25
Same, 33 by 24 inches	81 75	69 75
If decorated "Shell and Ribbon," as Plate 4036-R, page 18, add	67 00	38 00
If decorated "Rococo," as Plate 4037-R, page 20, add	67 00	38 00
If decorated "Colonial" (three gold lines), as Plate 4034-R, page 14, add	24 00	24 00
If decorated "Italian," in gold, as Plate 4035-R, p. 16, add	25 00	25 00
If without nickel-plated brass supply pipes, deduct \$4.		

<i>Mirror</i> —Beveled plate glass mirror, with tile frame 30 by 36 inches, for 30-inch lavatory	24 25
Same, with frame 33 by 36 inches, for 33-inch lavatory	27 00

The above prices are for the mirrors and frames unmounted. They should be set in the wall by the tile setter according to directions sent with each mirror; or we will give estimate for furnishing and setting the tile walls and the mirror complete.

<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder	2 50
Nickel-plated sponge holder	1 75
Nickel-plated comb and brush rack	2 75
Nickel-plated nail brush rack	2 50
Cut glass tumbler with nickel-plated holder	2 75
China tooth brush vase with nickel-plated holder	2 50
Nickel-plated towel rack and shelf, 26 inches long	5 75

In the evolution of sanitary science, we have reached what may be called the "Porcelain Age." Even as one prefers to drink from a china cup, instead of a tin dipper, so are our imperial porcelain lavatories preferred to all others.

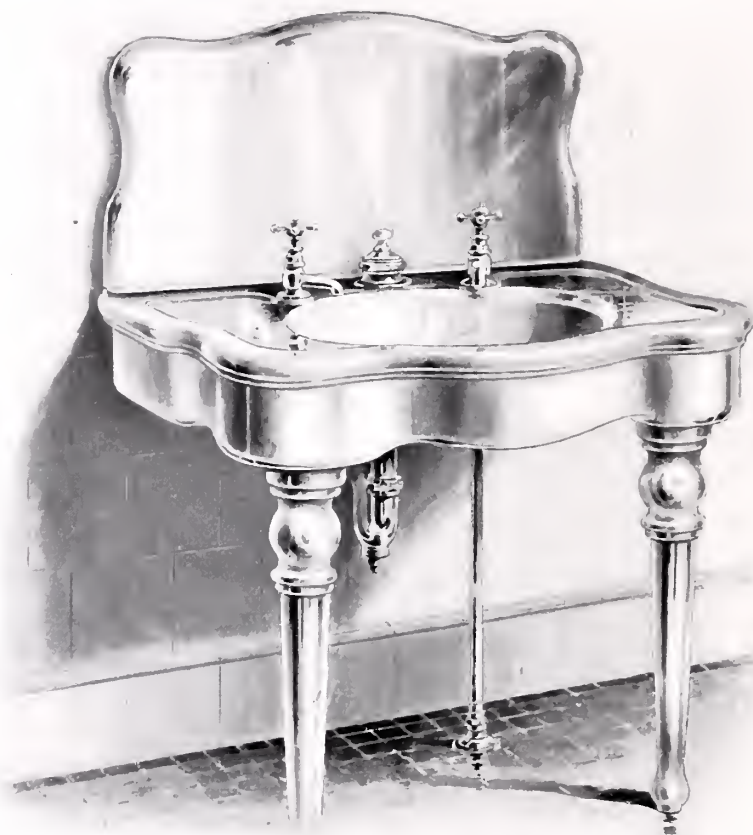

Plate 4000-R

Lavatory—Imperial porcelain, 30 by 24 inches, with imperial porcelain back and legs, nickel-plated “Unique” waste, nickel-plated low-down compression faucets with china name plates, nickel-plated supply pipes and adjustable brass trap

Same, 33 by 24 inches

Imperial Porcelain Lavatory

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 24 by 22 inches, with imperial porcelain back, nickel-plated legs, nickel-plated “Unique” waste, nickel-plated low-down compression faucets with china name plates, and nickel-plated adjustable trap	\$47 25	\$41 75
Same, 27 by 24 inches	54 00	44 00
<i>Mirror</i> —Beveled plate glass mirror with polished wood frame finished in white enamel, 24 by 18 inches		14 50
Same, frame 27 by 18 inches		15 50
<i>Lavatory Fittings</i> —Nickel-plated brass combination holder with china soap dish, tooth brush vase and cut glass tumbler		9 25
Nickel-plated comb and brush rack		2 75
Nickel-plated brass towel rack, 20 inches long		3 25

A most convenient arrangement of the various lavatory appliances is shown by Plate 4047-R. Each has its particular place, so that the slab is entirely unencumbered.

Plate 4048-R

	Class A	Class B
<i>Lavatory</i> —Imperial porcelain, 24 by 22 inches, with “Hygeia” waste (plug and chain), imperial porcelain back, white enamel painted iron legs, nickel-plated compression low-down faucets with china name plates, and nickel-plated brass adjustable trap	\$38 50	\$33 00
Same, 27 by 24 inches	45 25	35 25
If with nickel-plated brass legs, instead of enamel painted iron, add		3 50
If with bronzed iron legs, instead of enamel painted iron, deduct		1 00
The basin of the 24-inch lavatory is 18½ by 13 inches: of the 27-inch lavatory, 19 by 13½ inches.		

Plate 4049-R

Lavatory—The “Madison” imperial porcelain corner lavatory and standard, with “Unique” waste, nickel-plated compression low-down faucets with china name plates, and nickel-plated brass adjustable trap

Class A	Class B
\$47 50	\$41 50

Lavatory Fittings—China tooth brush vase with nickel-plated holder 2 50
Cut glass tumbler with nickel-plated holder 2 75
Cast-brass comb and brush holder 4 75

Dimensions: Length of side, 24 inches; length across front, 34 inches; basin, 16 by 12½ inches.

The desirable features of the imperial porcelain lavatory are emphasized in the above. The back is in one piece with the slab.

Plate 4029-R

	Class A	Class B
<i>Lavatory</i> —The “Madison” imperial porcelain corner lavatory, with “Hygeia” waste (plug and chain), nickel-plated brass standard, nickel-plated compression low-down faucets with china name plates, nickel-plated brass adjustable trap	\$45 00	\$39 00
If with imperial porcelain standard, deduct		2 75
If with “Nassau” waste as Plate 4007-R, add		1 25
<i>Lavatory Fittings</i> —China tooth brush vase with nickel-plated brass holder		3 00
Cut glass tumbler with nickel-plated brass holder		3 25
Nickel-plated brass comb and brush rack		4 75

Dimensions: Length of side, 24 inches; length across front, 34 inches; basin, 16 by 12½ inches.

Plate 4050-R

Class A

Class B

\$34 75

\$30 25

If with nickel-plated brass leg, add . . . \$2 75

If with “Nassau” waste, as Plate 4007-R, add . . . 1 25

Nickel-plated comb and brush rack . . . 4 75

Cut glass tumbler and nickel-plated holder . . . 2 75

China tooth brush vase and nickel-plated holder . . . 2 50

Dimensions: Length of side, 24 inches; length across front, 34 inches; basin, 16 by 12½ inches.

The lavatory is preferably built into the tiled wall, although, if desired, it may finish up against the wall.

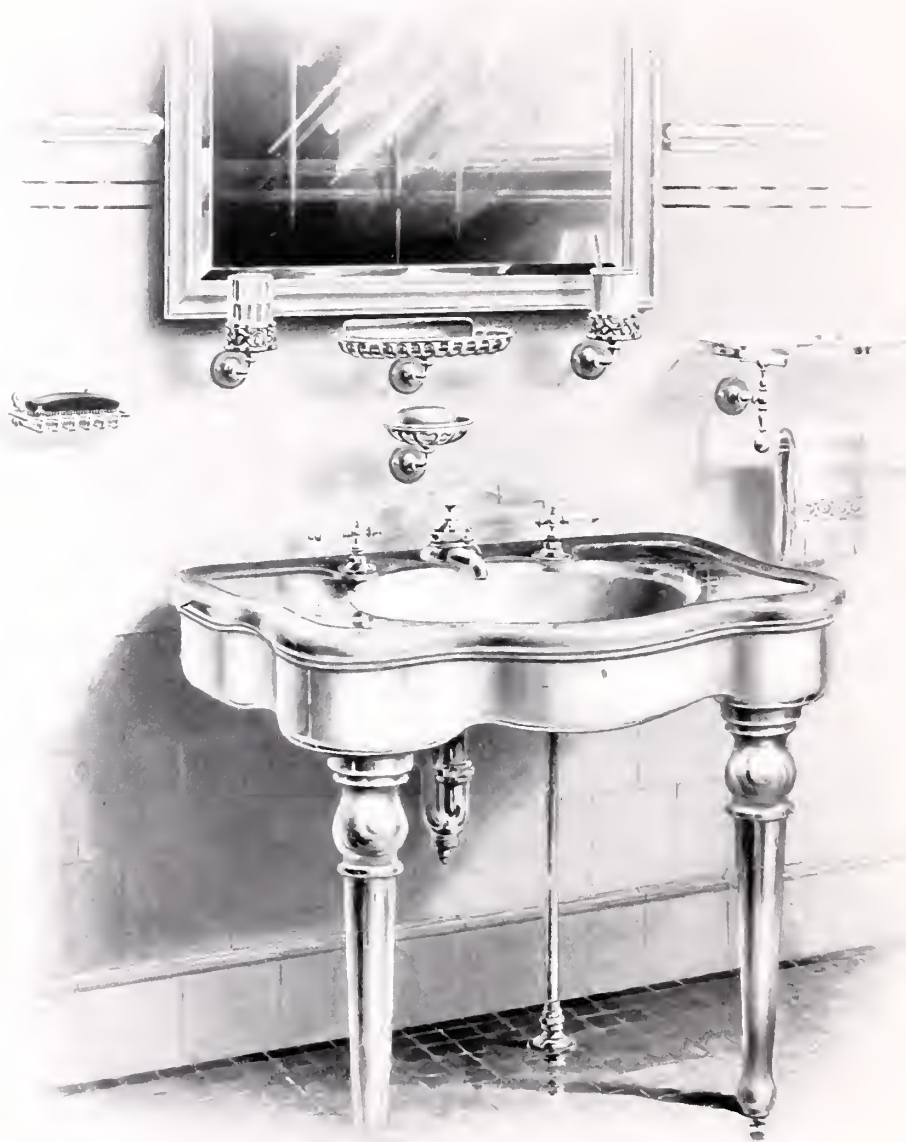

Plate 4051-R

Plate 4051-R

The "Tremont" Lavatory

	Class A	Class B	Class C
<i>Lavatory</i> —The "Tremont," imperial porcelain, 30 by 24 inches, with imperial porcelain legs, nickel-plated "Primus" combination supply and waste with china handles, and nickel-plated brass adjustable trap	\$64 00	\$53 00	\$48 00
Same, 33 by 24 inches	69 50	57 50	50 75
Nickel-plated supply pipes, extra per pair, \$4.			
If decorated "Shell and Ribbon," as Plate 4036-R, page 18, add	67 00	38 00	
If decorated "Rococo," as Plate 4037-R, page 20, add	67 00	38 00	
If decorated "Colonial," as Plate 4034-R, page 14, add			24 00
If decorated "Italian," as Plate 4035-R, page 16, add			25 00
If with faucets and "Unique" waste, as Plate 4000-R, p. 40, deduct			6 50
If with faucets and "Nassau" waste, as Plate 4046-R, p. 41, deduct			10 50
If with faucets and "Hygeia" waste, as Plate 4005-R, p. 42, deduct			11 75
 <i>Mirror</i> —Beveled plate glass with white enameled wood frame. 30 by 18 inches			15 00
Same, 33 by 30 inches			26 00
 <i>Lavatory Fittings</i> —China soap dish with nickel-plated holder			2 50
Nickel-plated comb and brush holder			4 75
China tooth vase with nickel-plated holder			2 50
Cut glass tumbler with nickel-plated holder			2 75
Nickel-plated nail brush holder			2 50
Nickel-plated glass towel shelf, glass bar and nickel-plated brackets			13 25

This lavatory is similar to the "Boylston" (see previous pages), in so far as it is set up free from the wall, and will appeal to those who prefer an all-open lavatory as leaving nothing to be desired on the score of symmetry, convenience and appearance. It is glazed all around.

Plate 4027-R

Plate 4027-R

The "Tremont" Lavatory

	Class A	Class B
<i>Lavatory</i> —The "Tremont," imperial porcelain, 24 by 22 inches, with "Hygeia" waste (plug and chain), nickel-plated brass legs, nickel-plated compression low-down faucets with china name plate, and nickel-plated brass adjustable trap	\$38 25	\$33 75
Same, 27 by 24 inches	43 75	36 50
If with white-enamel painted iron legs, deduct		3 50
If with bronzed iron legs, deduct		4 50
If with "Unique" waste, as Plate 4000-R, page 40, add		5 25
If with "Nassau" waste, as Plate 4046-R, page 41, add		1 25
<i>Mirror</i> —Plate glass (not beveled) with white enameled wood frame, 24 by 18 inches		12 75
Same, frame 27 by 18 inches		13 75
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		2 50
China tooth brush vase with nickel-plated holder		2 50
Cut glass tumbler with nickel-plated holder		2 75
Nickel-plated towel rack, 24 inches		1 50
Nickel-plated comb and brush rack		2 75

In most modern hotels and private dwellings, the bath rooms are tiled. This is as it should be. The tiled walls are sanitary and add to the desirability and renting capacity of the building. The all-open lavatory shown is particularly adapted for use where the walls are tiled, and will recommend itself to many.

Plate 4027-R is especially adapted for use in hotels, office buildings, apartment houses, residences, etc., where space is a consideration.

Plate 4052-R

Plate 4052-R

The "Tremont" Lavatory

	Class A	Class B
<i>Lavatory</i> —The "Tremont," imperial porcelain, 24 by 22 inches, with "Hygeia" waste (plug and chain), imperial porcelain standard, nickel-plated compression low-down faucets with china name plate, and nickel-plated brass adjustable trap	\$34 75	\$30 25
Same, 27 by 24 inches	40 25	33 00
If with "Unique" waste, as Plate 4000-R, page 40, add		5 25
If with "Nassau" waste, as Plate 4046-R, page 41, add		1 25
<i>Mirror</i> —Plate glass (not beveled), with white enamel wood frame, 24 by 18 inches		12 75
Same, frame 27 by 18 inches		13 75
<i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		2 50
China tooth brush vase with nickel-plated holder		2 50
Cut glass tumbler with nickel-plated holder		2 75
Nickel-plated towel rack, 24 inches		1 50
Nickel-plated comb and brush rack		2 75

The basin of the 24-inch lavatory is 18½ by 13 inches; of the 27-inch lavatory, 19 by 13½ inches.

The "Tremont" imperial porcelain lavatory with porcelain standard, as shown by Plate 4052-R, makes a symmetrical and secure arrangement. Heavy adjustable iron crossbars, with nickel-plated brass wall attachments, extend back to the wall, and hold the lavatory firmly in place. The standard, being in the center toward the back, cannot be damaged or touched by the feet.

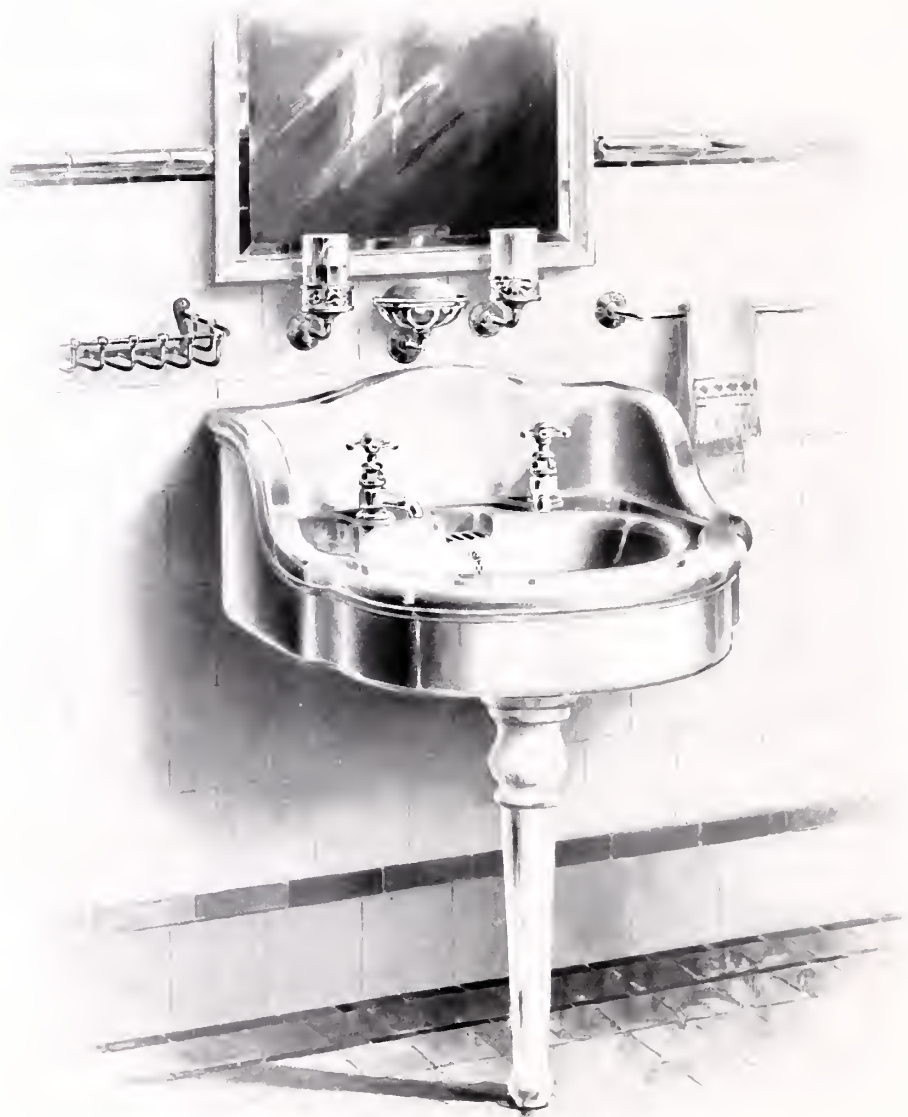

Plate 4053-R

Plate 4053-R *The "Unitas" Lavatory*

	Class A	Class B
<i>Lavatory</i> —The "Unitas," imperial porcelain, with "Hygeia" waste (plug and chain), imperial porcelain standard, nickel-plated compression low-down faucets with china name plate, and nickel-plated brass adjustable trap	\$38 50	\$33 00
If with "Unique" waste, as Plate 4000-R, page 40, add		5 25
If with "Nassau" waste, as Plate 4046-R, page 41, add		1 25
If with nickel-plated brass leg, as Plate 4029-R, add		2 75
 <i>Mirror</i> —Plate glass (not beveled), with white enameled wood frame, 24 by 18 inches		12 75
 <i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		2 50
China tooth brush vase with nickel-plated holder		2 50
Cut glass tumbler with nickel-plated holder		2 75
Nickel-plated towel rack, 24 inches		1 50
Nickel-plated comb and brush rack		2 75

Dimensions: Length, 24 inches; width from front to back, 22 inches; height of back, 7 inches; basin, 16 by 12 inches.

Among the notable buildings in which the imperial porcelain lavatories have been used are the Iroquois Hotel, Buffalo; Herald Square Hotel, New York; The Flagler Hotels, Florida; Hotel Reynolds, Boston; Westminster Apartments, Boston; Merchants' Loan and Trust Building, Chicago; Seelbach Hotel, Louisville, The Lakewood Hotel, etc.

All our imperial porcelain lavatories have a very large basin compared with the full size of the slab: thus, a small lavatory may be used and still provide a large basin: this is not the case with a marble slab.

Plate 4054-R

Plate 4054-R

The "Compacto" Lavatory

	Class A	Class B
<i>Lavatory</i> —The "Compacto," imperial porcelain, 24 by 22 inches, with imperial porcelain standard, "Hygeia" waste (plug and chain), nickel-plated "Syphono" self-closing faucets, and nickel-plated adjustable trap	\$34 75	\$30 25
Same, 27 by 24 inches	40 25	33 00
If with "Nassau" waste, as Plate 4046-R, page 41, add		1 25
If with "Unique" waste, as Plate 4000-R, page 40, add		5 25
If with low-down compression faucets with china name plate, deduct		1 00
 <i>Mirror</i> —Plate glass, with nickel-plated brass frame, 24 by 18 inches		12 00
Same, frame 27 by 18 inches		13 25
 <i>Lavatory Fittings</i> —China soap dish with nickel-plated holder		2 50
Cut glass tumbler with nickel-plated holder		2 75
Nickel-plated towel rack, 18 inches long		1 25

The "Compacto" was designed especially for use in hotels, apartment houses, office buildings, etc., and its advantages are quite apparent. The lavatory occupies but a minimum of space, yet, in common with all our imperial porcelain lavatories, it has a very large basin compared to the size of the slab. The tile finishes on the raised rim on the back of the lavatory, bringing the joint an inch or more above the level of the slab, a most important feature. Nothing can exceed the effect of neatness and cleanliness produced by the combination of the china-white glaze of the lavatory and the tiled wall. The imperial porcelain standard is entirely in harmony with the lavatory, and as it takes the place of a nickel-plated brass leg, the necessity of cleaning and polishing the latter is obviated—indeed, in any large building, the servant's time saved in cleaning the metal legs will pay for the lavatory in a year or less.

Plate 4054-R shows the lavatory for right-hand corner; when ordering, state if for right or left-hand corner.

Plate 4055-R

Plate 4055-R *The "Penn" Lavatory*

	Class A	Class B
<i>Lavatory</i> —The "Penn," imperial porcelain, 20 by 20 inches, with "Hygeia" waste (plug and chain), white enamel-painted iron standard, nickel-plated low-down compression faucet with china name plate, and nickel-plated soap dish	\$32 00	\$25 00
If with two faucets and less soap cup, add		25
If with nickel-plated brass standard, add		1 75
If with "Nassau" waste, as Plate 4046-R, page 41, add		1 25
If with push-button self-closing faucet (see subsequent page), add		1 75
 <i>Mirror</i> —Beveled plate glass, with nickel-plated brass frame, 20 by 24 inches		 13 25
 <i>Lavatory Fittings</i> —Nickel-plated comb and brush holder		 4 75
China tooth brush vase and cut glass tumbler with nickel-plated holder		5 50
Nickel-plated towel rack		5 00

Wherever space is limited, the "Penn" will be found an excellent lavatory. While the slab is only 20 by 20 inches, the basin measures 13 by 10½ inches on top and 14 by 11½ inches inside.

Plate 4056-R

Plate 4056-R

The "Tremont" Lavatories

	Class A	Class B	"Colonial"
<i>Lavatories</i> —Set of three imperial porcelain lavatories, 24 by 22 inches, with "Hygeia" waste (plug and chain), legs painted white-enamel, and nickel-plated compression low-down faucets with china name plate	\$87 75	\$74 25	\$69 75
Same, 27 by 24 inches	104 25	82 50	
Add for each additional lavatory, 24 inches	28 75	24 25	22 75
Add for each additional lavatory, 27 inches	34 25	27 00	
Brass waste pipe and 2-inch trap for three lavatories, rough, \$13.25 ; for each additional lavatory, add			3 25
Same, polished and nickel-plated, \$17.50 ; for each additional lavatory, add			3 75
If for cold water only, deduct from price of each lavatory			2 75
If with "Syphono" self-closing faucets, add for each faucet			50
If with nickel-plated brass legs, add for each leg			1 75
If with bronzed iron legs, deduct for each leg			50

The illustration shows a set of three lavatories, which can be increased to any desired number, or it may consist of two lavatories.

The lavatories are preferably placed two inches apart ; they can, however, be placed closer together if desired.

No lavatory, either marble or enameled iron, is to be compared with the "Tremont" imperial porcelain for use in public buildings, hotel wash rooms, schools, factories, in fact, under any conditions where a number of lavatories are set up in a row. The entire arrangement is sanitary-perfect. The lavatories stand free from the wall ; there is a space between each lavatory, thus there are absolutely no joints or recesses. The legs, which are of iron, preferably painted white-enamel, have cross pieces, with nickel-plated brass wall attachments, which extend back to the wall and afford a firm, rigid support. Of course, a tiled or enameled brick wall makes the best job, but it may be plastered if expense is a consideration. A row of these lavatories with their bright china-white glaze against a background of tile or enamel brick conveys an idea of appropriateness, cleanliness and neatness that must impress whomsoever sees them. To repeat, the "Tremont" is the ideal lavatory for the above-named class of buildings.

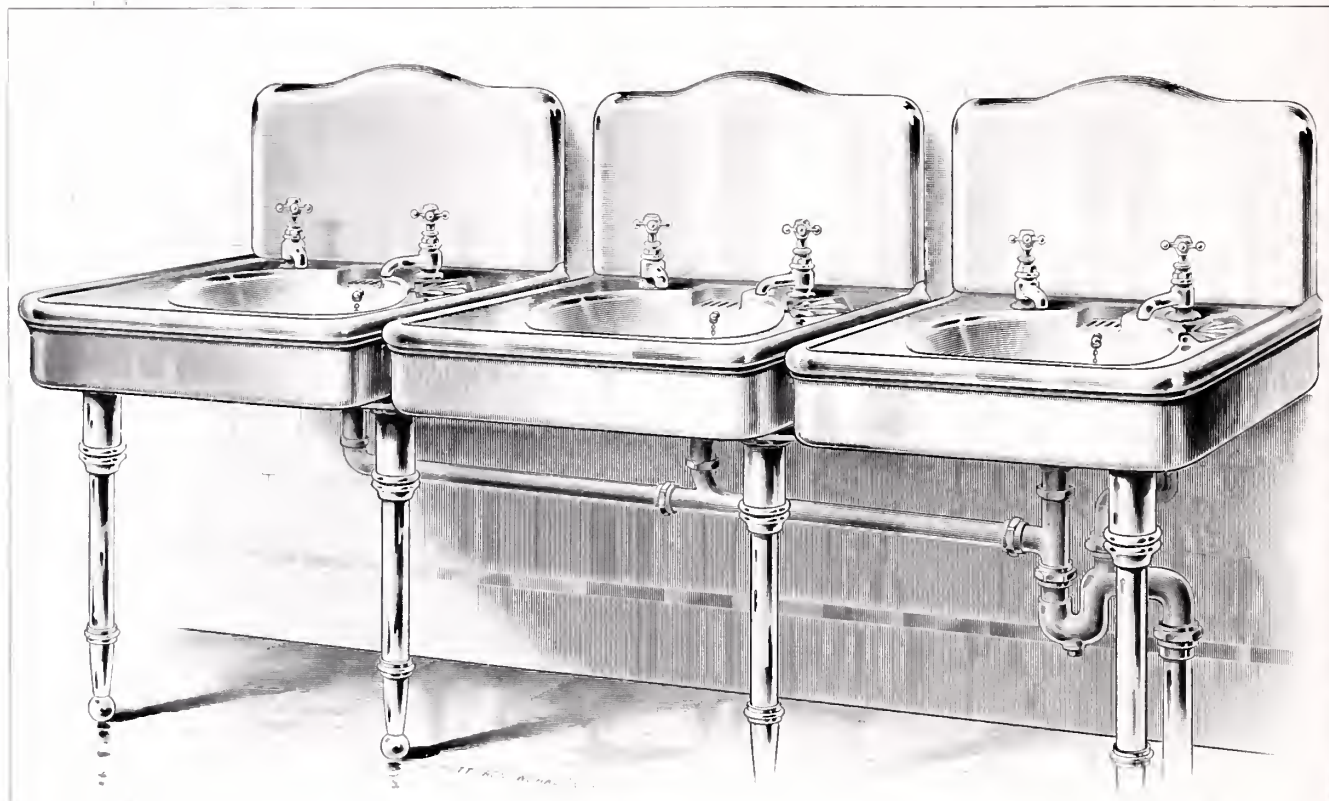

Plate 4012-R

Plate 4012-R

Imperial Porcelain Lavatories

	Class A	Class B	"Colonial"
<i>Lavatories</i> —Set of two imperial porcelain lavatories, 24 inches, with "Hygeia" waste (plug and chain), backs, white-enamel painted iron legs, and nickel-plated compression low-down faucets with china name plates			
	\$67 50	\$56 50	\$52 50
Same, 27 inches	81 00	63 50	
Set of three, as described, 24 inches	110 50	84 00	78 00
Same, 27 inches	120 75	94 50	
Add for each additional lavatory, 24 inches	33 00	27 50	25 50
Same, 27 inches	39 75	31 00	
Brass waste pipe and 2-inch trap for set of two lavatories, nickel-plated, extra, \$13.75; for each additional lavatory, add			3 75
Same, rough brass, \$10.00; for each additional lavatory, add			3 25
If for cold water only, deduct from price of each lavatory			2 75
If with self-closing faucets, as Plate 4015-R, add for each faucet			1 25
If with nickel-plated brass legs, add for each leg			1 75
If with bronzed iron legs instead of painted white-enamel, deduct for each leg			50
Dimensions: lavatory, 24 by 22 inches: basin, 18½ by 13 inches; lavatory, 27 by 24 inches: basin, 19 by 13½ inches.			

The illustration shows a set of three lavatories, which can be increased to any desired number, or it may consist of only two lavatories.

The lavatories are preferably placed two inches apart as shown; they can, however, be placed closer together if desired.

The classification of our imperial porcelain ware is very high. The Class A represents the highest grade of perfection obtainable with these large pieces of porcelain, while the Class B are really fine goods. The latter can be used to advantage when cost is a consideration, as they have only slight marks or lines that do not detract from their durability or usefulness. The "Colonial" are glazed a light buff and we recommend them for institutions where a strong, cleanly and durable lavatory is desired.

Plate 4057-R

Plate 4057-R
The "Crescent" Lavatory

	Class A	Class B	"Colonial"
<i>Lavatory</i> —The "Crescent," imperial porcelain, with "Hygeia" patent waste (plug and chain), iron standard painted white-enamel, nickel-plated low-down compression faucets with china name plates, price of single lavatory	\$28 75	\$23 75	\$22 75
If with back, as Plate 4012-R, add	4 75	3 75	3 25
Nickel-plated brass adjustable trap for iron pipe, extra			4 00
Brass waste pipe and 2-inch trap, as Plate 4012-R, for set of two, nickel-plated, extra			13 75
Same, rough brass			10 00
For each additional lavatory, nickel-plated			3 75
Same, rough brass			3 25
If with bronzed iron standard, deduct			50

Dimensions: Length from right to left, 22 inches; width from front to back, 18½ inches.

Plate 4057-R is adapted for use in schools, factories, institutions, etc., where a strong, cleanly and inexpensive lavatory is desired. Any number of these lavatories may be put up in a row.

The Valveless Lavatory

	Class A	Class B	"Colonial"
Lavatory—The Valveless, imperial porcelain, with iron standard painted white-enamel, nickel-plated brass supply nozzle and outlet coupling, each	\$26 25	\$20 50	\$19 00
Nickel-plated brass adjustable trap for iron pipe, extra			4 00
Brass waste pipe and 2-inch trap, as Plate 4012-R, per set of two lavatories, extra, nickel-plated			13 75
Same, rough brass			10 00
For each additional lavatory, nickel-plated			3 75
Same, rough brass			3 25

Dimensions: Length, 22 inches; width from front to back, 18½ inches; height of back, 3½ inches.

This lavatory is designed for use in schools, institutions and factories where a number of persons wash at the same time, the water supply being turned on and off (by the man in charge) by a stop cock which controls the supply to the entire range. The feature of the arrangement is that each person washes in running water, which, in the case of school children, is particularly desirable, as it eliminates the possibility of contagion and prevents them washing in water that has previously been used. There is no waste plug, the outlet being always open, consequently the lavatory requires no overflow. It is advisable to fit one lavatory in each range with a faucet for the convenience of those who might wish to wash during the hours when the main supply is not turned on.

Plate 4059-R

The "Asilo" Lavatory

	Class A	Class B	"Colonial"
Lavatory—The "Asilo," imperial porcelain, with white-enamel painted standard, nickel-plated brass combination compression supply faucet, and outlet coupling, each	\$32 00	\$26 25	\$24 75

Plate 4060-R

The "Asilo" Lavatory

	Class A	Class B	"Colonial"
Lavatory—The "Asilo," imperial porcelain, with extra-heavy painted iron brackets, nickel-plated brass combination self-closing supply faucet, and nickel-plated brass trap with quick-opening waste valve	\$38 25	\$32 50	\$31 00
If with rough brass trap and waste valve, deduct			1 50

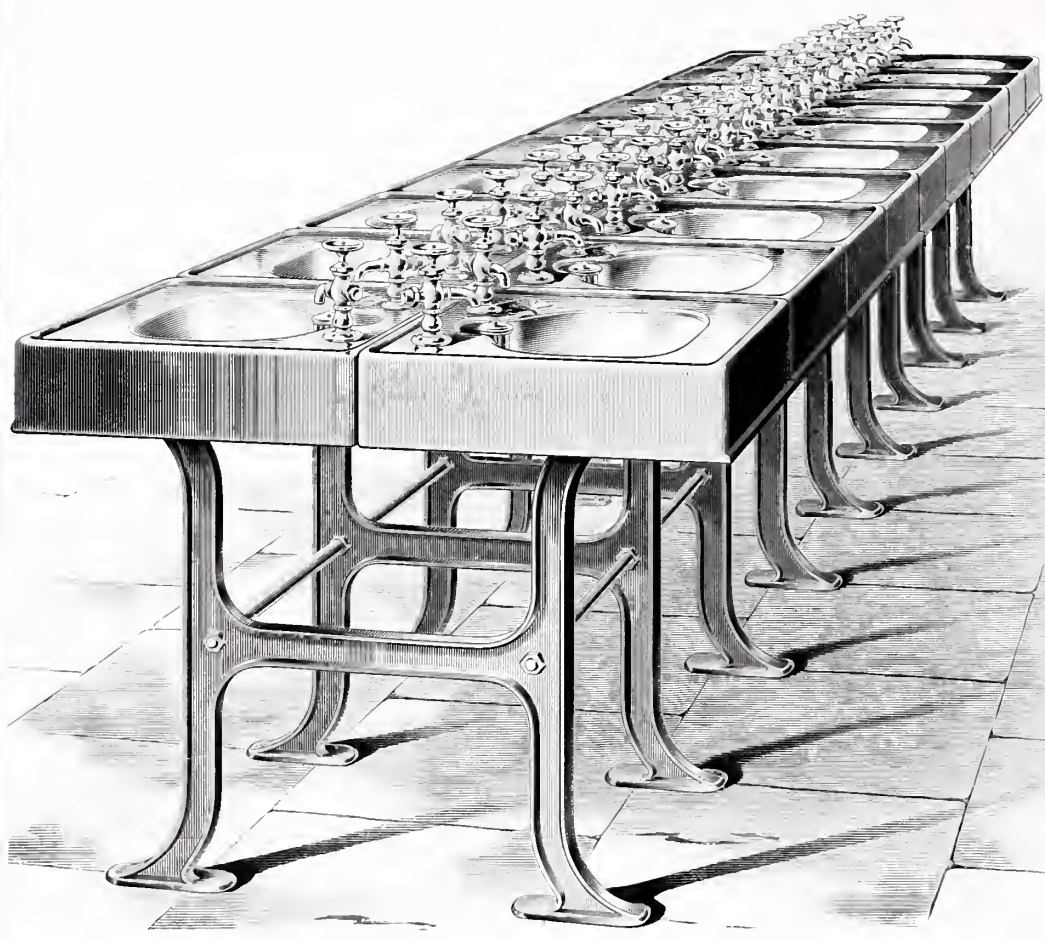

Plate 4015-R

Plate 4015-R

Imperial Porcelain Lavatories

	Class A	Class B	"Colonial"
<i>Lavatories</i> — Section of four, imperial porcelain, with nickel-plated brass "Simplex" waste, bronzed iron standards, nickel-plated brass self-closing faucets (a section consisting of four lavatories, back to back, <i>i. e.</i> , two on each side, with standards, and two faucets for each lavatory)	\$126 50	\$108 50	\$102 50
For each additional section of two lavatories, back to back, with bronzed iron standard, and nickel-plated brass self-closing faucets, add	60 50	51 50	48 50
If with lavatory, as shown by Plate 4056-R, deduct for each lavatory			1 25
If with cold water faucet only, deduct for each lavatory			4 00
If with low-down compression faucets, as Plate 4056-R, deduct for each faucet			1 25
Nickel-plated brass waste pipe and 2-inch trap for a section consisting of four lavatories			16 50
For each additional section of two lavatories, add			5 00

The above arrangement of lavatories can be reduced or increased as occasion demands, and can be furnished with one faucet instead of two, when only cold water is to be used. For factory use the "Colonial" ware can be highly commended.

Plate 4016-R

Hospital Lavatory—Imperial porcelain, 24 by 22 inches, with “Nassau” waste, back, iron legs painted white-enamel, nickel-plated brass pedal supply valves, nickel-plated pipe from pedal valve to spout, nickel-plated spout and nickel-plated brass adjustable trap for iron pipe

Same, 27 by 24

If with bronzed iron legs, deduct

If with nickel-plated brass legs, add

Plate 4018-R shows a section of the "Purita" waste.

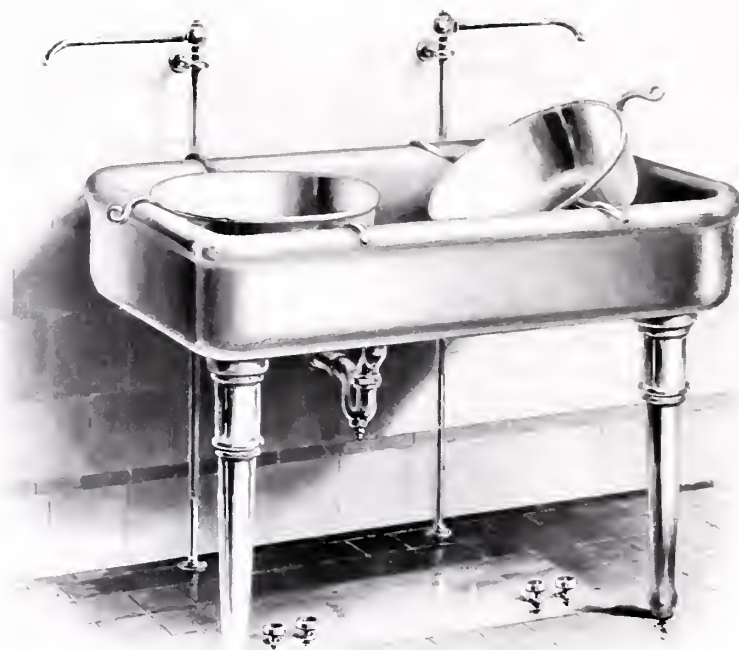

Plate 4022-R

Aseptic Lavatory-Sink—Imperial porcelain roll-rim sink, 42 by 24 by 7 inches, with iron legs painted white-enamel, nickel-plated brass combination pedal supply valves, nickel-plated brass swing spouts, nickel-plated brass pipes from valves to spouts, nickel-plated brass adjustable trap, and nickel-plated copper removable tilting basins

Class A

Class B

\$122 50 \$110 00

If with supply valves as Plate 4021-R 111 50 99 00

The tilting basins can be detached and put in the sterilizer and so effectively sterilized. They are made of heavy copper nickel-plated. When basins are not in use the sink can be utilized in other ways such as are common to operating rooms.

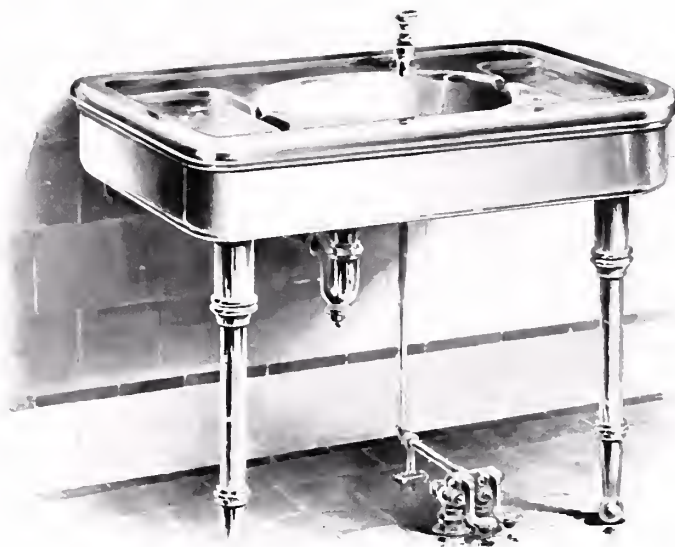

Plate 4021-R

Surgeon's Lavatory—Imperial porcelain, 36 by 24 inches, with nickel-plated brass combination pedal supply valve, nickel-plated brass spout, nickel-plated brass pipe from valve to spout, nickel-plated brass adjustable trap, iron legs painted white-enamel

Class A

Class B

\$70 75

\$54 25

If with pedal waste valve, as Plate 4017-R

80 00

63 50

The feature of this lavatory is the provision for instruments. On either side of the basin is a depression, one being for soiled instruments and the other for those that have been cleansed. The depressions drain into the basin; their dimensions are 14½ inches long, 6½ inches wide, 1½ inches deep. By means of the pedal valves cold, hot or tepid water may be obtained either for cleansing the hands or the instruments.

Plate 4021-R has no stopper, the intention being that all cleansing be done with running water from the spout. If preferred, we furnish the lavatory with pedal waste valve, by means of which water may be retained in the basin.

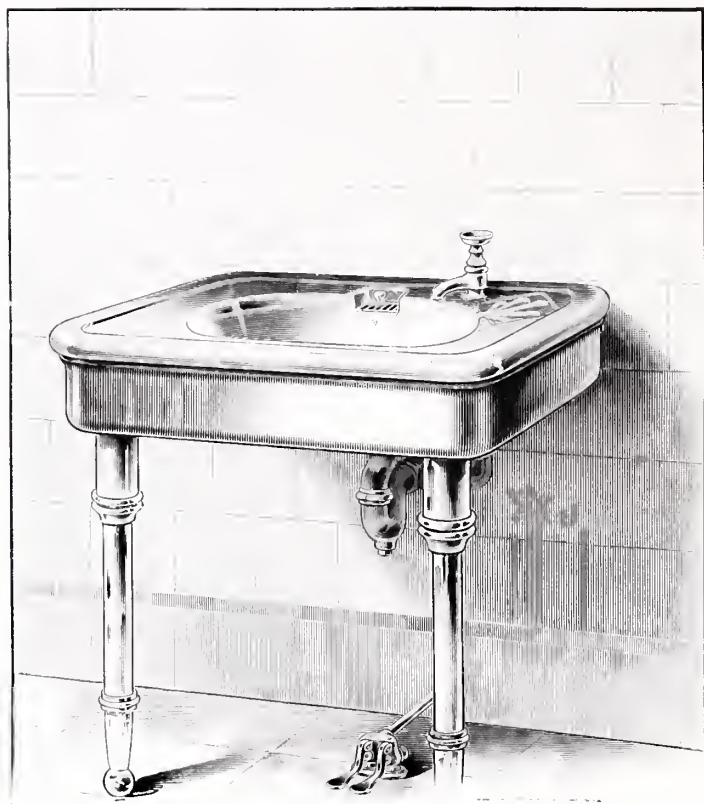

Plate 4019-R

	Class A	Class B
<i>Hospital Lavatory</i> —Imperial porcelain, 24 by 22 inches, with “Nassau” waste, iron legs painted white-enamel, nickel-plated brass pedal supply valves, nickel-plated pipe from pedal valve to spout, nickel-plated spout and nickel-plated adjustable brass trap for iron pipe	\$44 50	\$40 00
Same, 27 by 24 inches	50 00	42 75
If with bronzed iron legs, deduct	\$1 00	

If desired, a goose neck supply, instead of spout as shown will be furnished at same price for the above and preceding lavatories.

Plate 4020-R

Hospital Lavatory—Imperial porcelain, 24 by 22 inches, with “Purita” waste, iron legs painted white-enamel, nickel-plated combination Fuller and pedal supplies, nickel-plated pipe from pedal valve to spout, nickel-plated spout and “Reliance” nickel-plated brass trap.

Class A

Class B

Same, 27 by 24 inches	\$79 50	\$75 00
If with nickel-plated brass legs, add		3 50

Basin of 24-in. lavatory is 18½ x 13 ins.; of 27-in. lavatory, 19 x 13½ ins.

Plate 382-R

Section of Mott's patent self-closing basin faucet, nickel-plated, per pair \$8 00

Plate 382-R closes with the pressure, consequently the strength of the spring is a minimum as compared with faucets which close against the pressure. In the latter case the spring must be very heavy and requires the exertion of great power to open the faucet, whereas Mott's patent can be opened and held open without effort. It has been satisfactorily tested, and we strongly recommend it to those who desire a strictly first-class self-closing faucet. It is regularly made with wheel handle, as shown, so that by no means can it be permanently kept open when not actually in use. If preferred, we furnish it with other forms of handle.

Plate 9001-R

Nickel-plated "Syphono" self-closing basin faucet, per pair \$6 50

The "Syphono" is a heavy well-made self-closing basin faucet, which closes against the pressure.

No stuffing box is required to prevent upward leakage. The faucet has an eduction tube in which a current is induced by the velocity of the water flowing through the faucet, and which prevents any water escaping by the stem.

Plate 383-R

Low-down compression basin faucet with china name plates, per pair, \$5 50

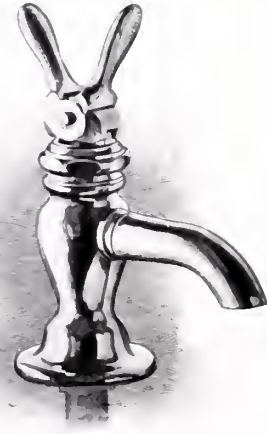

Plate 392-R

Nickel-plated rabbit-ear self-closing basin faucet, per pair \$5 50

Plate 9000-R

Nickel-plated push-button self-closing basin faucet with china name plates, per pair \$9 00

Mott's "Unique" Waste and "Primus" Combination Supply and Waste; Patented

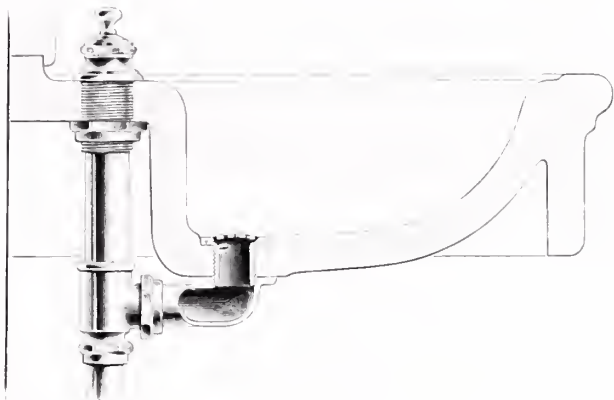

Plate 4009-R

*Section of Imperial Porcelain Lavatory, with Mott's Patent
"Unique" Waste*

The "Unique" waste is without doubt the most complete, the simplest, and the very best device ever made for connecting and controlling the overflow and waste of a wash basin.

The stand pipe can be taken out and cleaned with the same facility as an open standing waste, and without the use of any tool whatever.

The "Primus" is a novel combination of supply with our celebrated "Unique" waste. Cold and hot water may be drawn separately, or tepid water may be obtained by opening both the cold and hot water valves. The low-down supply is preferable to the ordinary faucets, which project into the basin, and are more or less in the way. There is but little brass work above the slab to be kept clean. The fine appearance of the "Primus" combination is enhanced by the beautiful china handles, which are preferable to metal for the reason that the plating wears off of the latter by constant use.

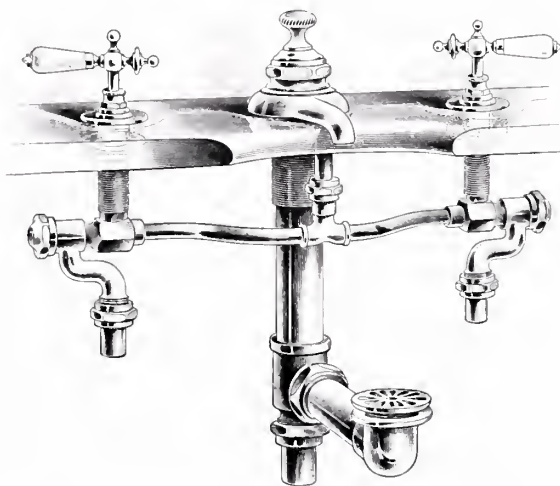

Plate 374-R

*"Primus" Combination Supply and Waste (Fuller Valves
with China Handles)*

*Sectional Views of Lavatories, with "Nassau" and
"Hygeia" Wastes*

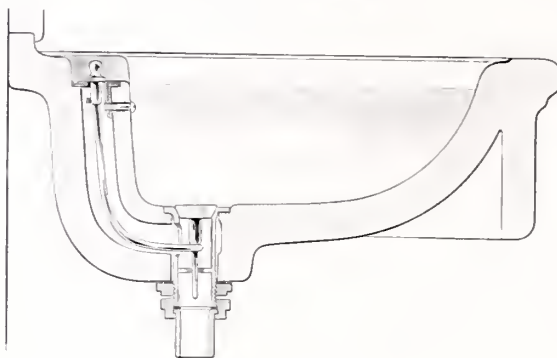

Plate 4010-R

Section of Imperial Porcelain Lavatory, with "Nassau" Waste (Patented)

Simplicity and directness of operation characterize the "Nassau" waste. The waste rod acts directly upon the stopper, and there is no liability of derangement. The overflow is unusually large and can be readily cleaned.

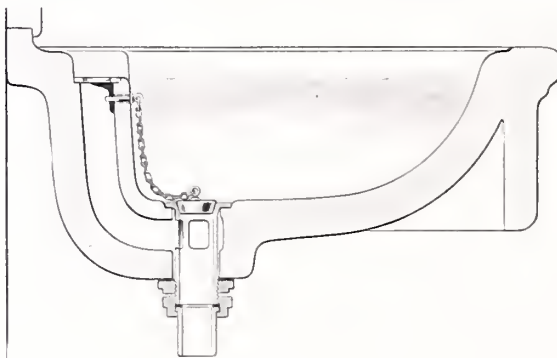

Plate 4011-R

Section of Imperial Porcelain Lavatory, with "Hygeia" Waste (Patented)

The outlet of the basin is at the back, bringing the plug and chain well out of the way. The chain is extra heavy. The overflow is glazed inside and is accessible for cleaning by simply unscrewing the bolt, which also forms the chain stay.
